[Blue Sky Uranium Corp.](#) (TSX-V: BSK, FRA: MAL, WKN: AOMKXP) ("Blue Sky, or the "Company") is pleased to announce that Dr. Ronald H. McMillan, Director of Blue Sky, has made a presentation at the invitation of the International Atomic Energy Agency ("IAEA") in Vienna, Austria. The presentation titled "A newly-discovered surficial-type uranium-vanadium district in the Eastern Cenozoic Bajos Basin of Rio Negro Province (Patagonia), Argentina" provides a description of the discovery history and exploration results obtained to date in this emerging uranium district. A copy of the presentation and draft paper submitted for publication to the IAEA are available on the Company's web site.

Draft Paper: <http://www.blueskyuranium.com/i/pdf/IAEA-Paper.pdf>

About IAEA

The IAEA is the world's center of cooperation in the nuclear field and works with its Member States and multiple partners worldwide to promote safe, secure and peaceful nuclear technologies. The IAEA Secretariat is headquartered at the Vienna International Centre in Vienna, Austria. Operational liaison and regional offices are located in Geneva, Switzerland; New York, USA; Toronto, Canada; and Tokyo, Japan. The IAEA runs or supports research centers and scientific laboratories in Vienna and Seibersdorf, Austria; Monaco; and Trieste, Italy.

About [Blue Sky Uranium Corp.](#)

Blue Sky is a member of the Grosso Group, a resource management group with over 18 years of exploration experience in South America. Blue Sky, through its membership with the Grosso Group, signed an agreement in principle for a strategic alliance with the Government of Rio Negro, Argentina, for the purpose of jointly exploring the potential for commercial mining activity to develop mining projects that provide for the acquisition, exploration and exploitation of polymetallic and energy related mineral deposits. Blue Sky is one of the country's leading uranium exploration companies with more than 6,000 km² of tenements. Argentina has an advanced nuclear industry, centered in the Rio Negro Province.

ON BEHALF OF THE BOARD

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

This news release may contain forward-looking statements including but not limited to comments regarding the timing and content of upcoming work programs, geological interpretations, receipt of property titles, potential mineral recovery processes, etc. Forward-looking statements address future events and conditions and therefore involve inherent risks and uncertainties. Actual results may differ materially from those currently anticipated in such statements. Readers are encouraged to refer to the Company's public disclosure documents for a more detailed discussion of factors that may impact expected future results. The Company undertakes no obligation to publicly update or revise any forward-looking statements. We advise U.S. investors that the SEC's mining guidelines strictly prohibit information of this type in documents filed with the SEC. U.S. investors are cautioned that mineral deposits on adjacent properties are not indicative of mineral deposits on our properties.
