The Underwriting:

A standby guarantee Consortium has been established to Underwrite CAD \$11.5 million of the Issue. The

Consortium mainly consists of larger Norwegian institutions, Questerre Energy Corp, Fondsfinans ASA, the entire Board of Transeuro and one additional private investor. Full details are available in the Norwegian and Canadian Prospectus available on Sedar and the Company sites.

The underwriting is regulated by an underwriting agreement entered into between the Company and the Underwriters listed above (collectively the "Underwriting Agreement") According to the Underwriting Agreement, each of the Underwriters has, severally, and not jointly, and on a pro rata basis and up to the maximum amount undertaken by each of them, undertaken to subscribe for the Offered Shares not subscribed for during the Subscription Period. The underwriting obligation of each Underwriter does not include a guarantee for the payment by any subscriber or any other Underwriter of their subscription amount in the Rights Offering.

The obligation of each Underwriter to subscribe for Offered Shares will be pro rata reduced by the number of Offered Shares subscribed for and allocated to Subscribers in the Rights Offering. Each Underwriter's obligation will be reduced on a share for share basis with the number of Offered Shares subscribed for in the Rights Offering and allocated to such Underwriter.

The Underwriting Agreement will expire if the Underwriters are not notified of any allocation pursuant to the Underwriting Agreement within December 17, 2011. The Underwriting Agreement will further terminate immediately in the event bankruptcy procedures are opened in respect of the Company.

In addition to the Consortium of CAD\$ 11.5 million, Questerre Energy Corp has (as previously announced) a CAD\$ 2 million commitment to participate in the offering. Questerre in June 2011 provided a CAD\$ 2 million loan to be repaid from the proceeds of the rights offering. Further Questerre Energy Corp has provided a CAD\$ 500,000 standby credit facility that may be drawn by the Company at any time over the next 12 months after closing of the Rights Offering. The interest rate on this facility is 24% per annum. Overall the Company has guaranteed access to CAD\$ 14 million. If fully subscribed the rights issue would provide CAD\$ 15,000,198.
