

Argonaut Gold and Prodigy Gold Receive Support From Leading Independent Proxy Advisor ISS For Plan of Arrangement

20.11.2012 | [Marketwired](#)

Vancouver – November 20, 2012 – Institutional Investor Services (ISS), a leading proxy advisory firm, has recommended that shareholders of [Prodigy Gold](#) (TSX.V: PDG) and [Argonaut Gold](#) (TSX: AR) vote in favour of Argonaut's proposed acquisition of all of Prodigy's issued and outstanding common shares.

The ISS report notes: "In light of the favorable market reaction, the favorable termination fee agreement, and no significant noted governance concerns, a vote FOR this resolution is warranted."

It adds that the potential dilution associated with the transaction will be 28% on a fully diluted basis for Argonaut common shares "which does not appear to be unreasonably excessive."

Furthermore, ISS says that Prodigy shareholders "are expected to be provided with exposure to current production and cash flow in a strong gold price environment and continuing exposure to the advancement of the Magino Property as well as Argonaut's existing organic growth profile. In light of the significant implied premium, the favorable market reaction, the strategic rationale and no significant governance concerns, a vote FOR this resolution is warranted."

If shareholders approve the arrangement, current Argonaut shareholders will hold approximately 78% of the outstanding Argonaut common shares and current Prodigy shareholders will hold approximately 22% of the outstanding Argonaut common shares.

Welcoming ISS' recommendation, Argonaut's chief executive, Pete Dougherty said: "These reports confirm that our agreement with Prodigy is based on the best interest of all shareholders. We look forward to creating a combined company that both Argonaut and Prodigy shareholders can be proud of."

Brian Maher, Prodigy's president and chief executive said: "We are very content with this recommendation. Our shareholders will receive the premium they deserve and will have the opportunity to participate in a company that has current production exposure and can both finance and develop Magino."

Shareholders are reminded to vote their proxy FOR the arrangement before the respective proxy deadlines:
