Vancouver, British Columbia -- Feb 25, 2013 -- [TNR Gold Corp.](#) (the "Company") would like to formally extend an invitation to all attendees to visit our booth 2407B at The Prospectors and Developers Association of Canada (PDAC) Tuesday, March 4th - Wednesday, March 5th 2013. For more conference details please visit the official site at [www.pdac.ca](http://www.pdac.ca).

About [TNR Gold Corp.](#)

Over the past twenty-one years TNR, through its lead generator business model, has been successful in generating high quality exploration projects around the globe. With the Company's expertise, resources and industry network, it is well positioned to aggressively identify, source, explore, partner and continue to expand its project portfolio.

TNR's recently listed subsidiary, [International Lithium Corp.](#) (TSX:ILC.V), demonstrated the successful application of TNR's business model in which TNR shareholders benefited from a unit distribution upon spin-out of TNR's lithium and rare metals projects. TNR remains a large shareholder in ILC at 25.5% of outstanding shares.

At its core, TNR provides significant exposure to gold and copper through its holdings in Alaska and Argentina; and teamed with the recent acquisitions of rare-earth elements and iron ore projects in Canada confirm TNR's commitment to continued generation of in-demand projects, while diversifying its markets and building shareholder value.

On behalf of the board,

Gary Schellenberg

President

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release. Statements in this press release other than purely historical information, historical estimates should not be

relied upon, including statements relating to the Company's future plans and objectives or expected results, are forward-looking statements. News release contains certain "Forward-Looking Statements" within the meaning of Section 21E of the United States Securities Exchange Act of 1934, as amended. Forward-looking statements are based on numerous assumptions and are subject to all of the risks and uncertainties inherent in the Company's business, including risks inherent in resource exploration and development. As a result, actual results may vary materially from those described in the forward-looking statements.
