

Corsa Announces Trading Resumption and Another Increase in 2013 Sales Guidance

10.04.2013 | [CNW](#)

TORONTO, April 10, 2013 - [Corsa Coal Corp.](#) (TSXV: CSO) ("Corsa" or the "Company") is pleased to announce that its common shares will recommence trading on the TSX Venture Exchange at the open on April 11, 2013. The halt was a normal course halt required by the TSXV in connection with Corsa's agreement to acquire Quintana Kopper Glo Investments, LLC announced on March 21, 2013.

In addition, the Company announced that it is again increasing its published sales guidance. For fiscal 2013 it is increasing its contracted sales guidance to approximately 300,000 to 320,000 tons and for fiscal Q1 2014 to approximately 45,000 to 60,000 tons.

Don Charter, President and CEO stated: "We have had very positive sales momentum since the beginning of the fiscal year. This is the result of the hard work of our team and is reflective of the quality of our product."

The Company continues to actively market its high quality low volatile metallurgical coal and matches production to actual sales. The Company reports future sales guidance based on currently contracted volumes. The Company has continued to be successful in achieving sales as a result of the quality of its low volatile met coal product.

Caution

The estimated coal production, purchases, sales and processing of coal disclosed in this press release are considered to be forward looking information. Readers are cautioned that actual results may vary from this forward looking information. Actual production, sales, shipments, purchases, total cash costs and sales and processing costs are subject to variation based on a number of risks and other factors referred to under the heading "Forward-Looking Statements" as well as actual demand and sales orders received. Costs will be impacted by production levels actually achieved.

Information about Corsa

Corsa's main operating subsidiaries are Wilson Creek Energy LLC and Maryland Energy Resources LLC based in Somerset County, Pennsylvania. Its primary business is the mining, processing and selling of metallurgical coal, as well as actively exploring, acquiring and developing resource properties consistent with its coal business.

Forward-Looking Statements

Certain information set forth in this press release contains "forward-looking statements" and "forward-looking information" under applicable securities laws. Except for statements of historical fact, certain information contained herein constitutes forward-looking statements which include management's assessment of future plans and operations and are based on current internal expectations, estimates, projections, assumptions and beliefs, which may prove to be incorrect. Some of the forward-looking statements may be identified by words such as "estimates", "expects", "anticipates", "believes", "projects", "plans", "outlook", "capacity" and similar expressions. These statements are not guarantees of future performance and undue reliance should not be placed on them. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause the Company's actual performance and financial results in future periods to differ materially from any projections of future performance or results expressed or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to: risks that the actual production or sales for the 2013 or 2014 fiscal years will be less than projected production or sales for these periods; risks that the prices for coal sales will be less than projected or expected; liabilities inherent in coal mine development and production including restarting idled mines; geological, mining and processing technical problems; inability to obtain required mine licenses, mine permits and regulatory approvals or renewals required in connection with the mining and processing of coal; risks that the Company's coal preparation plant will not operate at production capacity during the relevant period, unexpected changes in coal quality and specification; variations in the coal mine or coal preparation plant recovery rates;

dependence on third party coal transportation systems; competition for, among other things, capital, acquisitions of reserves, undeveloped lands and skilled personnel; incorrect assessments of the value of acquisitions; changes in commodity prices and exchange rates; changes in the regulations with respect to the use, mining and processing of coal; changes in regulations on refuse disposal; the effects of competition and pricing pressures in the coal market; the oversupply of, or lack of demand for, coal; inability of management to secure coal sales or third party purchase contracts; currency and interest rate fluctuations; various events which could disrupt operations and/or the transportation of coal products, including labour stoppages and severe weather conditions; the demand for and availability of rail, port and other transportation services; the ability to purchase third party coal for processing and delivery under purchase agreements; and management's ability to anticipate and manage the foregoing factors and risks. The forward-looking statements and information contained in this press release are based on certain assumptions regarding, among other things, future prices for coal; future currency and exchange rates; the Company's ability to generate sufficient cash flow from operations and access capital markets to meet its future obligations; the regulatory framework representing royalties, taxes and environmental matters where the Company conducts business; coal production levels; and the Company's ability to retain qualified staff and equipment in a cost-efficient manner to meet its demand. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The reader is cautioned not to place undue reliance on forward-looking statements. The Company does not undertake to update any of the forward-looking statements contained in this press release unless required by law. The statements as to the Company's capacity to produce coal are no assurance that it will achieve these levels of production or that it will be able to achieve these sales levels.

Completion of the transaction with Quintana Kopper Glo Investments, LLC is subject to a number of conditions, including TSXV acceptance and disinterested shareholder approval. The transaction cannot close until the required shareholder approval is obtained. There can be no assurance that the transaction will be completed as proposed or at all.

Investors are cautioned that, except as disclosed in the Filing Statement or Management Information Circular to be prepared in connection with the transaction, any information released or received with respect to the transaction may not be accurate or complete and should not be relied upon. Trading in the securities of Corsa should be considered highly speculative.

The TSX Venture Exchange has in no way passed upon the merits of the proposed transaction.

The TSX Venture Exchange has neither approved nor disapproved the contents of this press release. Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
