07.08.2013 | [Marketwired](#)

TORONTO, ONTARIO -- (Marketwired - Aug. 7, 2013) - [Vast Exploration Inc.](#) (TSX VENTURE:VST) reports that effective August 9, 2013 the common shares of the company have been consolidated such that one (1) new common share will be issued for every fifty (50) common shares outstanding on the date hereof. A letter of transmittal will be sent by mail to shareholders advising that the share consolidation has taken effect and instructing shareholders to surrender the certificates evidencing their common shares for replacement certificates representing the number of common shares to which they are entitled as a result of the consolidation. Until surrendered, each certificate representing common shares prior to the consolidation will be deemed for all purposes to represent the number of common shares to which the holder thereof is entitled as a result of the consolidation.

The potential benefits of the share consolidation include improving trading liquidity, allowing the company to raise additional capital at a higher price per share and reducing shareholder transaction costs. Following the share consolidation the number of Vast common shares issued and outstanding will be reduced from 261,892,494 common shares to approximately 5,237,849 common shares. Vast will not be changing its name at this time.

The shareholders of the company approved the share consolidation at the annual and special meeting of the company held on July 24, 2013. Further details regarding the share consolidation are contained in the company's Information Circular dated June 20, 2013, which has been filed on SEDAR at [www.sedar.com](http://www.sedar.com).
