About Amara Mining plc

Amara is a gold developer-producer with assets in West Africa. The Company generates cash flow through its Kalsaka/Sega gold mine in Burkina Faso. Amara is focused on unlocking the value in its development projects. At Yaoure in Côte d'Ivoire, this will be achieved by increasing the confidence in the existing Mineral Resource and economics at the project as the Company progresses it through to Pre-Feasibility Study and Bankable Feasibility Study. At Baomahun, this will be achieved by gaining an improved understanding of the exploration upside potential and underground opportunity. With its experience of bringing new mines into production and a project pipeline spanning four countries, Amara aims to further increase its production profile with highly prospective opportunities across its asset portfolio.
