

Africa Oil to Commence Trading on TSX on Tuesday, May 6, 2014

05.05.2014 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA--(Marketwired - May 5, 2014) - [Africa Oil Corp.](#) ("Africa Oil" or the "Company") (**TSX VENTURE:AOI**)(**OMX:AOI**) is pleased to announce that, as of the market open on Tuesday, May 6, 2014, the Company's common shares will commence trading on the TSX. The common shares will be concurrently delisted from the TSX Venture Exchange. The Company's trading symbol and CUSIP remain the same.

Africa Oil's common shares also currently trade on the NASDAQ OMX First North and, as with the graduation to the TSX, the Company intends to apply for a graduation to the NASDAQ OMX Stockholm main board.

Keith Hill, President and CEO, commented, "The Company has enjoyed tremendous growth over the past few years as a result of our multiple major oil discoveries in Kenya. We expect much continued growth as our exploration continues on our large prospective land package in Kenya and Ethiopia. Our acreage encompasses over 215,000 square kilometres and we've really only just begun to uncover the extent of the oil resources there. It is timely now to graduate to the senior board of the TSX and apply for the NASDAQ OMX main board as it will provide greater liquidity for the Company's shares and allow for a broader shareholder base."

Forward-Looking Statements

Certain statements made and information contained herein constitute "forward-looking information" (within the meaning of applicable Canadian securities legislation). Such statements and information (together, "forward looking statements") relate to future events or the Company's future performance, business prospects or opportunities. Forward-looking statements include, but are not limited to, statements with respect to estimates of reserves and or resources, future production levels, future capital expenditures and their allocation to exploration and development activities, future drilling and other exploration and development activities, ultimate recovery of reserves or resources and dates by which certain areas will be explored, developed or reach expected operating capacity, that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management.

All statements other than statements of historical fact may be forward-looking statements. Statements concerning proven and probable reserves and resource estimates may also be deemed to constitute forward-looking statements and reflect conclusions that are based on certain assumptions that the reserves and resources can be economically exploited. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar expressions) are not statements of historical fact and may be "forward-looking statements". Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. The Company believes that the expectations reflected in those forward-looking statements are reasonable, but no assurance can be given that these expectations will prove to be correct and such forward-looking statements should not be unduly relied upon. The Company does not intend, and does not assume any obligation, to update these forward-looking statements, except as required by applicable laws. These forward-looking statements involve risks and uncertainties relating to, among other things, changes in oil prices, results of exploration and development activities, uninsured risks, regulatory changes, defects in title, availability of materials and equipment, timeliness of government or other regulatory approvals, actual performance of facilities, availability of financing on reasonable terms, availability of third party service providers, equipment and processes relative to specifications and expectations and unanticipated environmental impacts on operations. Actual results may differ materially from those expressed or implied by such forward-looking statements.

[Africa Oil Corp.](#) is a Canadian oil and gas company with assets in Kenya and Ethiopia as well as Puntland (Somalia) through its 45% equity interest in [Horn Petroleum Corp.](#) Africa Oil's East African holdings are within a world-class exploration play fairway with a total gross land package in this prolific region in excess of 215,000 square kilometres.
