

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Apr 16, 2015) - [Atlantic Gold Corp.](http://www.atlanticgoldcorp.com) (TSX VENTURE:AGB) ("Atlantic" or the "Company") is pleased to announce that it has filed a National Instrument 43-101 ("NI 43-101") Technical Report on the updated mineral resource estimate in respect of the Company's wholly-owned Beaver Dam gold deposit (the "Resource Estimate"), located 80km northeast of Halifax. The Technical Report is available for review on SEDAR (www.sedar.com) and on the Company's website (www.atlanticgoldcorporation.com).

The results of the Resource Estimate were announced in a press release dated March 2, 2015. There are no material differences between the results announced in the news release and the results in the Technical Report.
