

YELLOWKNIFE, NORTHWEST TERRITORIES--(Marketwired - Jun 19, 2015) - TerraX Minerals Inc. (TSX VENTURE:TXR)(OTC PINK:TRXXF)(FRANKFURT:TX0) has completed a second closing of its non-brokered private placement announced May 19, 2015 with the issuance of a further 1,058,100 flow-through units at \$0.45 per unit and 125,000 flow-through common shares at \$0.40 per share for aggregate gross proceeds for this tranche of \$526,145. Each flow-through unit consists of one flow-through common share and one-half of one share purchase warrant, with each full warrant entitling the holder to purchase an additional common share at an exercise price of \$0.55 per share until June 18, 2018. The shares, warrants and any shares acquired on the exercise of warrants will be subject to a hold period expiring on October 19, 2015. Cash finder's fees will be payable with respect to a portion of this placement along with the issuance, to certain finders, of 46,986 finders warrants exercisable at \$0.55 until June 18, 2018.

The proceeds of this private placement, along with the proceeds of a \$2.5 Million flow-through private placement with [Osisko Gold Royalties Ltd.](#) (TSX:OR) completed on June 17, 2015, will be used to finance an extensive exploration program now underway on TerraX's wholly-owned Yellowknife City gold project ("YCG"), immediately north of Yellowknife in the Northwest Territories of Canada.

About the Yellowknife City Gold Project

The Yellowknife City Gold Project encompasses approximately 99.3 sq km of contiguous land immediately north of the City of Yellowknife in the Northwest Territories. Through a series of acquisitions, TerraX now controls one of the six major high-grade gold camps in Canada - and the least explored.

The project lies on the prolific Yellowknife greenstone belt and covers 15 km of strike length on the northern extension of the shear system that hosts the high-grade Con and Giant gold mines. The project area contains multiple shears that are the recognized hosts for gold deposits in the Yellowknife gold district, with innumerable gold showings and high grade drill results this past year that serve to indicate the project's potential as a world-class gold district. Since February 2013, TerraX has consolidated the project area by acquiring, optioning and staking numerous properties, including: Northbelt, Goodwin, Ryan Lake, Walsh Lake, and U-Breccia, as well as staking additional contiguous lands. Being all-season road accessible and within 15 km of the City of Yellowknife, the YCG is close to vital infrastructure, including transportation, service providers, hydro-electric power and skilled trades people.
