

VANCOUVER, July 28, 2015 /CNW/ - Taseko (TSX: TKO; NYSE MKT: TGB) (the "Company") is pleased to announce that a Participation and Cooperation Agreement has been finalized between the Gibraltar Mine and the Soda Creek Indian Band ("Xat'sull").

The agreement reflects a commitment by the Parties to work together productively and harmoniously, in the spirit of good faith and cooperation.

Russell Hallbauer, President and CEO of Taseko, commented, "Formalizing the relationship with the Xat'sull First Nation is a positive step forward with our First Nations neighbour. It demonstrates the mutual respect of both Parties and recognizes the contributions that each make, with their communities and the region. This agreement, along with the revenue sharing agreement with British Columbia from the mineral tax generated by Gibraltar, is ensuring the approximate 400 community members participate economically in the ongoing operational and financial success of Gibraltar."

Donna Dixon, Xat'sull Chief, stated, "We are pleased to formalize a relationship with Taseko regarding the Gibraltar Mine. This agreement provides us with capacity and a forum to directly engage with the mine on environmental and economic issues. It also provides valuable support for community development and educational initiatives for our members."

Note: Gibraltar is a Joint Venture owned by [Taseko Mines Ltd.](#) (75%) and Cariboo Copper Corp. (25%).

Russell Hallbauer

#### CAUTION REGARDING FORWARD-LOOKING INFORMATION

This document contains "forward-looking statements" that were based on Taseko's expectations, estimates and projections as of the dates as of which those statements were made. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "outlook", "anticipate", "project", "target", "believe", "estimate", "expect", "intend", "should" and similar expressions.

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the Company's actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. These included but are not limited to:

- uncertainties and costs related to the Company's exploration and development activities, such as those associated with continuity of mineralization or determining whether mineral resources or reserves exist on a property;
- uncertainties related to the accuracy of our estimates of mineral reserves, mineral resources, production rates and timing of production, future production and future cash and total costs of production and milling;
- uncertainties related to feasibility studies that provide estimates of expected or anticipated costs, expenditures and economic returns from a mining project;
- uncertainties related to the ability to obtain necessary licenses permits for development projects and project delays due to third party opposition;
- uncertainties related to unexpected judicial or regulatory proceedings;
- changes in, and the effects of, the laws, regulations and government policies affecting our exploration and development activities and mining operations, particularly laws, regulations and policies;
- changes in general economic conditions, the financial markets and in the demand and market price for copper, gold and other minerals and commodities, such as diesel fuel, steel, concrete, electricity and other forms of energy, mining equipment, and fluctuations in exchange rates, particularly with respect to the value of the U.S. dollar and Canadian dollar, and the continued availability of capital and financing;
- the effects of forward selling instruments to protect against fluctuations in copper prices and exchange rate movements and the risks of counterparty defaults, and mark to market risk;
- the risk of inadequate insurance or inability to obtain insurance to cover mining risks;
- the risk of loss of key employees; the risk of changes in accounting policies and methods we use to report our financial condition, including uncertainties associated with critical accounting assumptions and estimates;
- environmental issues and liabilities associated with mining including processing and stock piling ore; and
- labour strikes, work stoppages, or other interruptions to, or difficulties in, the employment of labour in markets in which we operate mines, or environmental hazards, industrial accidents or other events or occurrences, including third party interference that interrupt the production of minerals in our mines.
