

Vancouver, BC / TheNewswire / November 20, 2015 - Durango Resources Inc. (the "Company" or "Durango") has created a landing website as a new information source on green energy related lithium products and projects. The website will provide information to green related users while advertising Durango.

The website will offer social and business networking by allowing lithium commodity producers to post available products for sale as well as allowing lithium project holders to offer any lithium projects for sale. In addition, the website will act as a social and business networking median, allowing any party to source posted lithium products and projects and will also provide information on green energy lithium and uses of lithium.

The website is expected to go live next week and Durango will issue a release with further details as it becomes available.

The Guardian reported on November 18, 2015, that "(President) Obama insisted on an ambitious deal in Paris would spur investment, as it would signal to businesses that they should "go all-in on renewable energy technologies"." As such, Durango is working to acquire these green energy related projects and anticipates being in the position to move forward on exploring on the related acquisitions. Durango continues to review and negotiate on several brine and salar/playa related lithium prospects in Alberta, Canada and Nevada, USA.

Recently, Durango acquired several lithium prospects adjacent to Nemaska Lithium (TSX.V-NMX) located in Quebec, LNG related limestone prospects on the north coast of BC, and Nickel Cobalt properties with historic results near Vale (owned by Voisey's Bay) in Labrador. Durango also continues to hold and explore its precious metals prospect, the Decouverte (Discovery) located in northern Quebec.

About Durango

Durango is a natural resources company engaged in the acquisition and exploration of mineral properties. The Company has a 100% interest in the Mayner's Fortune and Smith Island limestone properties in northwest British Columbia, the Decouverte and Trove gold properties in the Abitibi Region of Quebec, and the NMX East lithium property near the Whabouchi mine in Quebec, as well as three sets of claims in the Labrador nickel corridor.
