This news release contains forward-looking information relating to Claren Energy's intentions to conduct the drilling programs and other statements that are not historical facts. Such forward-looking information is subject to important risks and uncertainties that could cause actual results to differ materially from what is currently expected, for example: risks related to oil and gas exploration, development, exploitation, production, marketing and transportation, loss of markets, volatility of commodity prices, currency fluctuations, competition from other producers, inability to retain drilling rigs and other services, reliance on key personnel, and insurance risks. Findings by other oil and gas issuers does not necessarily indicate that Claren Energy will be successful in making such findings in the Western Flank. In making such forward-looking statements, Claren Energy has relied upon certain assumptions relating to geological settings, commodity prices, the stability of markets and currencies and the availability of capital to Claren Energy in order to continue with the seismic and drilling programs. You should not place undue importance on forward-looking information and should not rely upon this information as of any other date. While Claren Energy may elect to, Claren Energy is under no obligation and does not undertake to update this information at any particular time, except as required by applicable securities law.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
