Further to the Company's news releases dated September 8, 2016 and March 21, 2017, the Company has completed a private placement of 7,500,000 units, on a post-consolidated basis, at a price of \$0.10 per unit for gross proceeds of \$750,000. The Company intends to use the proceeds from the private placement to finance exploration on the Railroad Valley lithium brine property, and the Black Canyon lithium clay property, and to review and assess additional technology metal natural resources exploration and development properties as well as general administrative purposes.

As a result of the private placement, King & Bay West Management Corp. ("King & Bay") will own and control 2,500,000 common shares of the Company, representing approximately 8.87% of the issued and outstanding common shares of the Company. King & Bay has acquired the common shares and warrants for investment purposes and may, in the future, acquire or dispose of the common shares or warrants through the market, private or otherwise as circumstances or market conditions warrant.
