

Toronto, Ontario (FSCwire) - [Black Iron Inc.](#) ("Black Iron" or the "Company") (TSX: BKI) is pleased to announce that it recently became a member of the 8020 Connect community. 8020 Connect is the investment industry's newest investor network, developed to deliver corporate information to shareholders, investment industry experts and like-minded investors, while enabling these group members to interact with one another and with the Company's management team.

Through the 8020 Connect shareholder and investor platform, Black Iron can communicate project advancements, corporate messages and financial information to all shareholders and investors in a timely and effective fashion. The 8020 Connect social media component provides a monitored and professional environment, allowing the Company to respond to questions and manage group conversations. The 8020 Connect platform and services will also provide Black Iron with an opportunity to expand its audience to other interested investors and industry experts worldwide.

There is no cost for investors to join Black Iron's forum in the 8020 Connect community which can easily be done by going to the following website [www.8020connect.com/companies/black-iron-inc](http://www.8020connect.com/companies/black-iron-inc)

## About Black Iron

Black Iron is an iron ore exploration and development company, advancing its 100% owned Shymanivske project located in Kryviy Rih, Ukraine. The Shymanivske project contains a NI 43-101 compliant resource estimated to be 645.8 Mt Measured and Indicated mineral resources, consisting of 355.1 Mt Measured mineral resources grading 32.0% total iron and 19.5% magnetic iron, and Indicated mineral resources of 290.7 Mt grading 31.1% total iron and 17.9% magnetic iron, using a cut-off grade of 10% magnetic iron. Additionally, the Shymanivske project contains 188.3 Mt of Inferred mineral resources grading 30.1% total iron and 18.4% magnetic iron. Full mineral resource details can be found in the NI 43-101 compliant technical report dated January 24, 2014 titled "Feasibility Study of the Shymanivske Iron Ore Deposit for [Black Iron Inc.](#)" under the Company's profile on SEDAR at [www.sedar.com](http://www.sedar.com). The Shymanivske project is surrounded by five other operating mines, including ArcelorMittal's iron ore complex. Please visit the Company's website at [www.blackiron.com](http://www.blackiron.com) for more information.

## Forward-Looking Information

*This press release contains forward-looking information. Forward-looking information is based on what management believes to be reasonable assumptions, opinions and estimates of the date such statements are made based on information available to them at that time, including those factors discussed in the section entitled "Risk Factors" in the Company's annual information form for the year ended December 31, 2016 or as may be identified in the Company's public disclosure from time to time, as filed under the Company's profile on SEDAR at [www.sedar.com](http://www.sedar.com). Forward-looking information may include, but is not limited to, statements with respect to the Company's ability to communicate with the stakeholders using 8020 Connect, the Shymanivske project and future plans for the Company's development. Generally, forward looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking information, including but not limited to: general business, economic, competitive, geopolitical and social uncertainties; the actual results of current exploration activities; other risks of the mining industry and the risks described in the annual information form of the Company. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.*
