

# Select Sands Announces Purchase Order for Initial Shipment of Product by Barge

08.11.2017 | [GlobeNewswire](#)

VANCOUVER, British Columbia, Nov. 08, 2017 (GLOBE NEWSWIRE) -- [Select Sands Corp.](#) ("Select Sands" or the "Company") (TSXV:SNS) (OTC:SLSDF) today confirmed that there is no material change in company operations in light of the significant upward movement in the Company's stock price yesterday. At the same time, Select Sands views this as an opportunity to announce that it has received its first purchase order to ship product by barge. Under the terms of the agreement, the Company will ship 10,000 tons of frac sand to the Northeastern United States for use in hydraulic fracturing operations in the Utica and Marcellus shale basins.

Zig Vitols, President and Chief Executive Officer, commented, "While rail and truck remain as our primary shipping method, the addition of barging capabilities opens the opportunity to significantly increase the number of destinations and volume shipped. Barging to the Utica and Marcellus displays our ability to reach all the basins and plays that surround our Arkansas operations. In addition, our ability to also ship southward on the Mississippi River will give access to the Gulf Coast which will enhance our ability to more efficiently access the Eagle Ford basin that is currently served by rail."

About Select Sands Corp.

[Select Sands Corp.](#) is an industrial Silica Product company developing its 100% owned, 520-acre Northern White, Tier-1, silica sands project located in Arkansas, U.S.A. Select Sands' Arkansas property has a logistical advantage of being significantly closer to oil and gas markets located in Oklahoma, Texas, New Mexico, Colorado and Louisiana than Wisconsin sources. The Tier-1 reference above is a classification of frac sand developed by PropTester, Inc., an independent laboratory specializing in the research and testing of products utilized in hydraulic fracturing & cement operations, following ISO 13503-2:2006/API RP19C:2008 standards.

Select Sands' Sandtown project has Indicated Mineral Resources of 42.0MM tons (TetraTech Report; February, 2016) and Bell Farm has Inferred Mineral Resources of 49.6MM tons (Kleinfelder Report; April, 2017). Both deposits are considered Northern White finer-grade sand deposits of 40-70 Mesh and 100 Mesh.

Forward-Looking Statements

This news release includes forward-looking information and statements, which may include, but are not limited to, information and statements regarding or inferring the future business, operations, financial performance, prospects, and other plans, intentions, expectations, estimates, and beliefs of the Company. Information and statements which are not purely historical fact are forward-looking statements. The forward-looking statements in this press release relate to the opportunity for future product deliveries by barge. Forward-looking information and statements involve and are subject to assumptions and known and unknown risks, uncertainties, and other factors which may cause actual events, results, performance, or achievements of the Company to be materially different from future events, results, performance, and achievements expressed or implied by forward-looking information and statements herein. Although the Company believes that any forward-looking information and statements herein are reasonable, in light of the use of assumptions and the significant risks and uncertainties inherent in such information and statements, there can be no assurance that any such forward-looking information and statements will prove to be accurate, and accordingly readers are advised to rely on their own evaluation of such risks and uncertainties and should not place undue reliance upon such forward-looking information and statements. Any forward-looking information and statements herein are made as of the date hereof, and except as required by applicable laws, the Company assumes no obligation and disclaims any intention to update or revise any forward-looking information and statements herein or to update the reasons that actual events or results could or do differ from those projected in any forward-looking information and statements herein, whether as

a result of new information, future events or results, or otherwise, except as required by applicable laws.
