

Noront Resources and Aroland First Nation Sign Memorandum of Understanding

06.06.2019 | [GlobeNewswire](#)

TORONTO, June 06, 2019 - [Noront Resources Ltd.](#) ("Noront" or the "Company") (TSX Venture: NOT) and Aroland First Nation are pleased to announce the signing of a Memorandum of Understanding (MOU) between the two parties to advance the planning process for the development of the Eagle's Nest nickel-copper-platinum-palladium deposit in the Ring of Fire.

The signing of the MOU will formalize the relationship between the parties including the establishment of an ongoing working and communication protocol and the initiation of dialogue regarding mutually beneficial economic development opportunities. The MOU will also result in Aroland becoming a shareholder of Noront with the issuance of 150,000 shares in the Company to the First Nation, subject to TSX Venture Exchange approval.

Noront recognizes the traditional lands of Aroland First Nation located at the south end of the proposed North-South all-season road to the region where the road infrastructure will connect with established railroads.

"Noront is actively reaching out to the traditional land holders in the area and engaging them in early dialogue on how the projects and associated infrastructure will be developed," said Alan Coutts, President and CEO of Noront. "We are excited to begin this journey with our friends in Aroland."

"Aroland First Nation is advancing responsible mineral development in collaboration with other area First Nations in what we call the 'Mining Hub' that is growing quickly between the Geraldton-Beardmore Greenstone belt and the Ring of Fire," said Chief Dorothy Towedo of Aroland First Nation. "Our First Nation is encouraged by Noront's inclusive approach to advancing mutually beneficial opportunities with First Nations. Early dialogue is key."

Noront previously signed an Exploration and Project Advancement Agreement with Marten Falls First Nation who is also a shareholder of the Company.

About Aroland First Nation
