TSX-V: GBR

VANCOUVER, June 13, 2019 - [Great Bear Resources Ltd.](#) (TSXV:GBR) ("Great Bear" or the "Company") is pleased to announce that in connection with its previously announced bought deal financing, the Company and a syndicate of underwriters led by Cormark Securities Inc. ("Cormark") and including Canaccord Genuity Corp. (collectively, the "Underwriters") have agreed to increase the size of the previously announced financing. The Company will now issue 1,500,000 common shares that qualify as "flow-through shares" of the Company for the purposes of the Income Tax Act (Canada) ("Flow-Through Common Shares") at a price of \$5.45 per Flow-Through Common Share, on a "bought deal" private placement basis, for aggregate gross proceeds to the Company of approximately C\$8.2 million (the "Offering"). The Company has also granted the Underwriters an option to sell up to an additional 500,000 Flow-Through Common Shares at the offering price up to the closing date.

The proceeds from the Offering will be used to incur "Canadian exploration expenses" (within the meaning of the Income Tax Act (Canada)) related to Great Bear's projects in Ontario. The Company will renounce these expenses to the purchasers with an effective date of no later than December 31, 2019.

The Offering is scheduled to close on or about July 3, 2019 and is subject to certain conditions including, but not limited to, the receipt of all necessary regulatory and other approvals including the approval of the TSX Venture Exchange.

Chris Taylor, President and CEO of Great Bear said, "Interest in this placement from top tier investors whom we are pleased to include as shareholders has exceeded our capacity to accommodate within the terms announced on Wednesday. We are therefore pleased to announce expansion of the placement, and know that we will benefit from the added flexibility this additional funding will provide at the exploration level at Dixie."

This press release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws and may not be offered or sold within the United States or to or for the account or benefit of a U.S. person (as defined in Regulation S under the U.S. Securities Act) unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

About Great Bear

[Great Bear Resources Ltd.](#) (TSX-V: GBR) is a well financed company based in Vancouver, Canada, managed by a team with a track record of success in the mineral exploration sector. Great Bear holds a 100% interest, royalty free, in its flagship Dixie property, which is road accessible year-round via Highway 105, a 15 minute drive from downtown Red Lake, Ontario. The Red Lake mining district is one of the premier mining districts in Canada, benefitting from major active mining operations including the Red Lake Gold Mine of Newmont Goldcorp Corp., plus modern infrastructure and a skilled workforce. Gold production from the Red Lake district does not necessarily reflect the mineralization that may, or may not be, hosted on the Company's Dixie property. The Dixie property covers a drill and geophysically defined multi-kilometre

gold mineralized structure similar to that associated with other producing gold mines in the district. In addition, Great Bear is also earning a 100% royalty-free interest in the Pakwash, Dedee and Sobel properties, which cover regionally significant gold-controlling structures and prospective geology elsewhere in the Red Lake district. All of Great Bear's Red Lake projects are accessible year-round through existing roads.
