

Gold recovery testing completed at Santa Elena mine; Significant gold recovery expected by September 1st

12.08.2019 | [GlobeNewswire](#)

CABORCA, Aug. 12, 2019 - [Mexus Gold US](#) (OTCQB: MXSG) ("Mexus" or the "Company") announced that on July 30th the company poured gold at its Santa Elena mine. The pour completed all necessary testing for the mine including mining, crushing, leaching, gold recovery and gold sales with minor adjustments to the flux smelting formula. Mexus is now ready to run at maximum capacity. The company has added additional ore to complete the 4000 ton heap leach pad with a 2.8 gram per ton Au average including material recently assayed (see link below). Leaching is expected to start by August 14th with significant gold recovery to occur by September 1st.
