

# Inca One 2019 Annual General Meeting Results and Planned Share Consolidation

20.12.2019 | [Newsfile](#)

Vancouver, December 19, 2019 - [Inca One Gold Corp.](#) (TSXV: IO) (FSE: SU9.F) (SSEV: IOCL) ("Inca One" or the "Company") has released the results of its Annual General Meeting (the "Meeting") of shareholders held on December 17, 2019 in Vancouver, British Columbia.

At the Meeting all resolutions were duly passed by the requisite majority. Based on proxies received, 121,616,558 million common shares of the company representing 45.98% of the issued and outstanding common shares as at the record date were voted and the all directors were re-elected until the next annual meeting of shareholders.

Grant Thornton LLP, Chartered Professional Accountants were re-appointed as auditors of the Company for the ensuing year and shareholders confirmed the Company's stock option plan.

In addition, for a number of months, trading activity of the Company's shares have been below the minimum level of 5 cents to allow for a financing. This has placed a constraint on the Company's ability to raise growth capital and in turn give confidence to current and future shareholders. After reviewing all possible options, the board has approved a motion to consolidate 264,517,440 pre consolidation shares on the basis of 1:10, and if completed, the consolidation would reduce the issued shares in the company to approximately 26,451,744 post consolidation shares.

The company will apply for TSX Venture Exchange approval and anticipate the consolidation process to be completed in early January 2020, at which time its common shares will trade on a consolidated basis under the existing name and trading symbol.

For additional information on these matters please refer to Inca One's information circular available on the company's website at [www.incaone.com/investors/agm/](http://www.incaone.com/investors/agm/) or on SEDAR.

## About Inca One

Inca One is a Canadian based mineral processing company. The Company's activities consist of the production of gold and silver from the processing of purchased minerals located in Peru. Peru is the 6th largest producer of gold in the world and the Peruvian government estimates the small-scale mining sector accounts for a significant portion of all Peruvian gold production, estimated to be valued approximately US\$3 billion annually. The Company purchases its minerals from government-registered, small-scale mining producers from various regions and processes it at its 100%-owned Chala One and 90%-owned Kori One milling facilities, located in Arequipa, Southern Peru.
