

# Troilus Files Technical Report

31.08.2020 | [GlobeNewswire](#)

TORONTO, Aug. 31, 2020 - [Troilus Gold Corp.](#) (TSX: TLG; OTCQB: CHXMF) (&#8220;Troilus&#8221; or the &#8220;Company&#8221;) today announces the filing of a technical report (the &#8220;Technical Report&#8221;) for its 100% owned Troilus property located 170 km by road north of Chibougamau, in northwestern Quebec, Canada (the &#8220;Troilus Project&#8221;). The Technical Report, dated August 27, 2020 effective July 20, 2020 supports the scientific and technical disclosure in the updated mineral resource estimates (see news release dated July 28, 2020).

The Technical Report titled, &#8220;Technical Report on the Troilus Gold-Copper Project Mineral Resource Estimate, Quebec, Canada&#8221; was prepared by Mr. Paul Daigle, g?o., Senior Associate Resource Geologist with AGP Mining Consultants Inc. (AGP). Mr. Daigle is an independent Qualified Person in accordance with the requirements of National Instrument 43-101 (&#8220;NI 43-101&#8221;). The Technical Report is available on SEDAR at [www.sedar.com](http://www.sedar.com) and on the Company&#8217;s website at [www.troilusgold.com](http://www.troilusgold.com).

## Qualified Person

The technical and scientific information in this press release has been reviewed and approved by Bertrand Brassard, M.Sc., P.Geo., Senior Project Geologist, who is a Qualified Person as defined by NI 43-101. Mr. Brassard has also verified the technical data contained in this press release using industry accepted standards. Mr. Brassard is an employee of Troilus and is not independent of the Company under NI 43-101.

## About Troil[US Gold Corp.](#)

Troilus is a Toronto-based, Quebec focused, advanced stage exploration and early-development company focused on the mineral expansion and potential mine re-start of the former gold and copper Troilus mine. The 107,326 hectare Troilus property is located within the Frot?t-Evans Greenstone Belt in Quebec, Canada. From 1996 to 2010, [Inmet Mining Corp.](#) operated the Troilus project as an open pit mine, producing more than 2,000,000 ounces of gold and nearly 70,000 tonnes of copper.

## Cautionary Note Regarding Forward-Looking Statements and Information

*Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability; the estimate of Mineral Resources in the updated Mineral Resource statement may be materially affected by environmental, permitting, legal, title, taxation, socio-political, marketing, or other relevant issues. There is no certainty that the Indicated Mineral Resources will be converted to the Probable Mineral Reserve category, and there is no certainty that the updated Mineral Resource statement will be realized.*

*This press release contains &#8220;forward-looking statements&#8221; within the meaning of applicable*

Canadian securities legislation. Forward-looking statements include, but are not limited to, statements regarding the impact and implications of the updated mineral resource estimate and drill results on the Company, the growth potential and possible economics of the project and the Company's understanding of the project; the development potential and timetable of the project; the estimation of mineral resources; realization of mineral resource estimates; the anticipated timing of the Preliminary Economic Assessment; the timing and amount of estimated future exploration; the anticipated results of the Company's planned 2020 drill program and their possible impact on the potential size of the mineral resource estimate; costs of future activities; capital and operating expenditures; success of exploration activities; the anticipated ability of investors to continue benefiting from the Company's low discovery costs, technical expertise and support from local communities; and the anticipated timing of filing the Technical Report. Generally, forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects", or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "continues", "anticipates", or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "will", "might", or "will be taken", "occur", or "be achieved". Forward-looking statements are made based upon certain assumptions and other important facts that, if untrue, could cause the actual results, performances or achievements of Troilus to be materially different from future results, performances or achievements expressed or implied by such statements. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which Troilus will operate in the future. Certain important factors that could cause actual results, performances or achievements to differ materially from those in the forward-looking statements include, amongst others, currency fluctuations, the global economic climate, dilution, share price volatility and competition. Forward-looking statements are subject to known and unknown risks, uncertainties and other important factors that may cause the actual results, level of activity, performance or achievements of Troilus to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: the impact the COVID 19 pandemic may have on the Company's activities and the economy in general; the impact of the recovery post COVID 19 pandemic and its impact on gold and other metals; there being no assurance that the exploration program will result in expanded mineral resources; risks and uncertainties inherent to mineral resource estimates; receipt of necessary approvals; general business, economic, competitive, political and social uncertainties; future gold and other metal prices; accidents, labour disputes and shortages; environmental and other risks of the mining industry, including without limitation, risks and uncertainties discussed in the latest annual information form of the Company, in the Technical Report to be filed and in other continuous disclosure documents of the Company available under the Company's profile at [www.sedar.com](http://www.sedar.com). Although Troilus has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Troilus does not undertake to update any forward-looking statements, except in accordance with applicable securities laws.

#### Cautionary Note to U.S. Investors Concerning Estimates of Mineral Resources

These mineral resource estimates have been prepared in accordance with the requirements of Canadian securities laws, which differ from the requirements of U.S. securities laws. The terms "mineral resource", "measured mineral resource", "indicated mineral resource", and "inferred mineral resource" are defined in NI 43-101 and recognized by Canadian securities laws but are not defined terms or recognized under U.S. securities laws. U.S. investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be upgraded to mineral reserves. "Inferred mineral resources" have a great amount of uncertainty as to their existence, and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an "inferred mineral resource" will ever be upgraded to a higher category. Under Canadian securities laws, estimates of "inferred mineral resources" may not form the basis of feasibility or pre-feasibility studies. U.S. investors are cautioned not to assume that all or any part of an inferred mineral resource exists or is economically or legally mineable. Accordingly, these mineral resource estimates and related information may not be comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements under the U.S. federal securities laws and the rules and regulations thereunder.
