Thunder Bay, December 9, 2020 - [Benton Resources Inc.](#) (TSXV: BEX) ('Benton' or 'the Company') announces that it has filed documents with the TSX Venture Exchange seeking final approval for its recently announced non-brokered private placement of flow-through and non-flow through units (the "Private Placement") (see Benton PR dated November 19, 2020).

On receipt of all regulatory approvals, the Company will issue 3,250,000 flow-through units at a price of \$0.20 per flow-through unit, each consisting of 1 flow-through common share of the Company and ½ (one half) of a common share purchase warrant, with each full warrant entitling the holder to acquire an additional common share of the Company at \$0.30 for a period of 24 months from the date of issue, and 2,138,000 non flow-through units at a price of \$0.17 per unit each consisting of 1 common share of the Company and 1 common share purchase warrant, with each warrant entitling the holder to acquire an additional common share of the Company at \$0.30 for 24 months from the date of issue, for aggregate gross proceeds of \$1,013,460. The flow-through shares will entitle the holder to receive the tax benefits applicable to flow-through shares, in accordance with provisions of the Income Tax Act (Canada).

Upon receipt of regulatory approval and in connection with the private placement, the Company will pay \$49,138 in cash finders' fees and will issue 288,960 finders' warrants exercisable at \$0.20 for 24 months from the date of issue, as permitted by the policies of the TSX Venture Exchange. All securities issued pursuant to the private placement will be subject to a four-month hold period.

The proceeds of the financing will be used to advance Benton's Far Lake IOCG project and its various early-stage Ontario-based exploration projects, and for working capital purposes.
