Emerging Markets Report: Four-Play

06.04.2021 | GlobeNewswire

ORLANDO, April 06, 2021 - Today's featured Company is a little different than those we normally cover. In fact, its business model is so unique that we may never have another deal quite like it.

<u>CAT Strategic Metals Corp.</u> (CSE:CAT) is a mineral exploration company focused on the acquisition and exploration of Strategic North American mineral projects. The highly diversified Company has already secured four significant properties of merit in highly prospective areas of known mineralized potential and historical production.

That's the cold intro. The exciting part is that the Company's four projects are not just in regions known for high potential and past production, they are also pursuing metals of tremendous value.

Let's take a look at the four project inside CAT Strategic Metals:

The Rim Rock Project. Located in Northern Nevada, this is a gold (Au) & silver (Ag) Project located in the prolific Carlin Trend, 1,112 hectare consolidated claim package. Assay results with silver values up to 262 g/t and tungsten (W) values of up to 1,500 g/t.

The Gold Jackpot Project

Also in mineral rich Névada, this is a copper, silver, gold and tellurium (Te) project located in the Pequop Gold-Copper Trend. A 535 hectare consolidated claim package with a total of 62 claims. Assay results with gold values up to 16 g/t, silver 239 g/t, tellurium 4 kg/ton.

The South Preston Project

Saskatchewan, Canada based Uranium project located in the prolific Athabasca Basin. The 28,395 hectares Athabasca Basin is known as the world's leading source of high-grade uranium.

The Burntland Project

Located in New Brunswick, Canada this is a copper, silver and gold project near Bathurst VMS district, 780 hectares consolidated claim package. Assay results with copper value up to 16.3% & silver values of up to 220 g/t.

As time goes on we hope to fully showcase each of these projects, the current market opportunity and the leadership behind the digs.

Right now, what you need to know about CAT Strategic Metals Corp is that a share of the Company is also truly a four-play of mining operations for some of the world's most desired minerals.

About The Emerging Markets Report:

The Emerging Markets Report is owned and operated by Emerging Markets Consulting (EMC), a syndicate of investor relations consultants representing years of experience. Our network consists of stockbrokers, investment bankers, fund managers, and institutions that actively seek opportunities in the micro and small-cap equity markets.
