

Gold Line Announces Appointment of Börje Salming as Public Relations Ambassador, Sweden

19.05.2021 | [CNW](#)

VANCOUVER, May 19, 2021 - [Gold Line Resources Ltd.](#) (TSXV: GLDL) (OTC: TLLZF) ("Gold Line" or the "Company") to announce the appointment of Anders Börje Salming ("Börje Salming") to its Advisory Board, in the capacity of Public Relations Ambassador, in Sweden. In his role as an Ambassador to the Company, Mr. Salming will assist the Company in developing an appropriate stakeholder and public relations management strategy for Sweden, with a primary focus on nurturing meaningful relationships with key community groups.

Mr. Salming was born on April 17, 1951 in Kiruna, Sweden. Within his native Sweden, Börje Salming is fondly and respectfully nicknamed 'The King', is a well-respected citizen and a national hockey icon. Börje is of proud Sámi heritage, an indigenous Finno-Ugric people inhabiting Sápmi, which today encompasses large northern parts of Norway, Sweden, Finland and the Kola Peninsula within the Murmansk Oblast of Russia. The Sámi have historically been known in English as Laplanders.

Outside of Sweden, and in the 'World of Hockey', Börje is recognized as one of the National Hockey League's (the "NHL") dominating defensemen, having played for two 'Original Six' hockey teams - the Toronto Maple Leafs, from 1973 to 1980, and the Detroit Red Wings, from 1989 to 1990. Although not the first European to play in the NHL, Mr. Salming was arguably the first recognized European hockey 'star' to play in the NHL during his era. Mr. Salming was a trailblazer for Swedish-born hockey players, paving the way for generations of fellow Swede NHL players, and establishing Sweden as one of the world's premier breeding grounds of 'hockey elite'. In 1996 Börje Salming was the first Sweden-trained NHL player inducted into the NHL Hall of Fame, and in 2017 he was named one of the 100 Greatest NHL Players in history.

"It is a true honour to welcome Mr. Salming to Gold Line's Advisory Board, and I personally look forward to his input on the development of strategies that ensure the establishment of mutually respectful and sustaining relationships with the communities within which our Company works and operates," stated Adam Cegielski, Gold Line CEO.

The Company also wishes to announce that its CEO, Adam Cegielski, along with newly appointed, Public Relations Ambassador in Sweden, Börje Salming will be featured on the Joe Tilley Sports Show.

ABOUT GOLD LINE RESOURCES LTD.

Gold Line Resources is focused on acquiring mineral properties with exceptional exploration potential in the most prolific gold-producing regions of Fennoscandia, and further delineating the historic exploration results of these projects. The Company currently holds a prospective portfolio of advanced and early-stage gold exploration properties in Sweden, including the Norra property in the Skellefteå Belt; and the Långtjärn property (comprised of the Storjuktan North and Storjuktan South).

the Blåbärliden property, and the Paubäcken property, all located within the Gold Line Mineral Belt, in Sweden.

High-grade gold occurrences across the Company's properties in Sweden were identified by state run programs in the 1980's with little to no modern exploration. Historical drill intercepts include 11.4 g/t Au over 6.0m at the Blåbärliden property and areas of high-grade gold mineralization sampled in boulders and outcrops of 60+ g/t Au² at the Paubäcken Project.

¹ The historical drill intercept was completed by Lappland Goldminers in 2007 and was reported and published by Geological Survey of Sweden (SGU). Gold Line Resources has not performed sufficient work to verify the published assay data but believe these data to be reliable and relevant.

² The historical rock chip samples were collected from boulders by Lappland Goldminers in 2005 and were reported by Geological Survey of Sweden. Gold Line Resources has not performed sufficient work to verify the published assay data but believe these data to be reliable and relevant.
