Peabody Reports Results For Quarter Ended June 30, 2021

29.07.2021 | PR Newswire

22.05.2025 Seite 1/18

ST. LOUIS, July 29, 2021 - Peabody (NYSE: BTU) today announced its second quarter 2021 operating results, includir of income taxes of \$23.0 million; net loss attributable to common stockholders of \$28.6 million; diluted loss per share freshing.

"We are optimistic about the future given strong coal market demand and pricing around the globe as economies continuer to the current market cycle and continue to benefit from cost improvement initiatives," said Peabody President and Chief Executives, approach focusing on expanding margins, through ongoing operational improvements, cost controls and sales strategies company to be resilient in all market cycles."

Second Quarter 2021 Financial Results

Second quarter revenues totaled \$723.4 million compared to \$626.7 million in the prior year primarily due to the impact

Selling, general and administrative expenses decreased 15 percent from the prior year to \$21.4 million as a result of th

Depreciation, depletion, and amortization (DD&A) declined 13 percent from the prior year to \$77.1 million, primarily due Q2 2020.

Interest expense of \$45.4 million increased \$11.1 million over the prior year due to higher borrowing costs and amortization

Loss from continuing operations, net of income taxes totaled \$23.0 million compared to \$1.5 billion in the prior year, or North Antelope Rochelle Mine. Adjusted EBITDA totaled \$122.1 million compared to \$23.4 million in the prior year prim thermal volumes and improved costs across the platform.

Segment Performance

During the second quarter, the seaborne thermal segment shipped 4.1 million tons with exports of 2.0 million tons at ar under a long-term domestic contract. Despite a year-over-year reduction in sales volumes, unfavorable exchange rates costs of \$29.61 per ton were largely in line with the prior year reflecting the continued impact of cost reduction initiative EBITDA margins and Adjusted EBITDA of \$71.4 million.

In the second quarter, Wilpinjong shipped 3.3 million tons at an average realized price of \$38 per ton, which included 1 per ton and 2.1 million tons of domestic sales at an average price of \$22 per ton. Wilpinjong costs of \$22 per ton were costs compared to the prior year. Operating cash flow was also impacted by timing of shipments, higher accounts rece approximately \$52 million of Adjusted EBITDA, completed \$7 million of capital expenditures and had \$102 million of capital expenditures.

The seaborne met segment shipped 1.4 million tons at an average realized price of \$85.48 per short ton in the second quarter. Total segment costs of \$104.24 per ton decreased 14% compared to the prior year as productivity improvemer unfavorable exchange rates, ramp up costs at Metropolitan and Shoal Creek idle costs. Seaborne met costs excluding ton in the prior year primarily due to fleet optimization and mine sequencing at the CMJV, which lowered costs by more EBITDA loss of \$26.4 million.

The PRB segment shipped 22.5 million tons at an average realized price of \$11.06 per ton. PRB costs per ton decreas ton was more than offset by 26% higher volumes over the prior year. The segment reported 18% Adjusted EBITDA ma

The other U.S. thermal segment shipped 3.9 million tons at an average realized price of \$40.70 per ton. Cost per ton desequencing and timing of longwall moves in the prior year. The segment reported 27 percent Adjusted EBITDA margins

Balance Sheet and Cash Flow

Peabody ended the quarter with \$561.9 million of cash, cash equivalents and restricted cash, a \$61.8 million reduction million of debt in the quarter and reached agreements to retire an additional \$50 million that will settle after June 30, 20

22.05.2025 Seite 2/18

During the quarter, the company completed multiple bilateral debt-for-equity exchanges by issuing 4.5 million shares of common stock in exchange for \$30.9 million of Senior Secured Notes due March 2022. The company also retired \$53 million of other senior secured debt through open market repurchases. As a result, Peabody recorded a net gain on debt extinguishment of \$11.8 million. The current portion of long-term debt increased by \$25 million due primarily to the pending settlement of additional debt repurchases.

For the year, the company has retired \$126 million of senior secured debt, with an additional \$50 million pending settle

Also, during the quarter, the company sold 8.1 million shares of common stock under its previously announced "at-the-\$65.1 million. Subsequent to June 30, 2021, the company settled sales of an additional 2.7 million shares under the promillion shares remaining available for issuance under the currently authorized ATM program.

Outlook

Based on current market conditions, Peabody anticipates the following in 2021:

US Thermal Operations:

- Coal deliveries will remain largely dependent on general economic conditions, weather, natural gas prices, utility
- Essentially all projected volumes priced and committed.
- Based on expected production levels and current commodity prices, full year 2021 cost per ton in the PRB are es be \$30.50.

Seaborne Thermal Operations:

- Higher seaborne thermal volumes in the second half as Wilpinjong and the Wambo JV complete development pro
- Costs per ton are expected to be \$33.75 due to product mix, higher expected royalties, exchange rates and fuel product mix, higher expected royalties, exchange rates and fuel product mix.
- Second half Wilpinjong revenue and costs per ton are anticipated to be higher than first half 2021 as estimated extransportation and royalty costs as compared to domestic shipments) are anticipated to be a higher proportion of shipments and 3.6 million tons of domestic shipments for the remainder of the year.

Seaborne Met Operations:

- The CMJV is anticipated to continue to recognize cost and productivity improvements with full year sales volumes
- Metropolitan is expected to ship approximately 0.8 million tons in the second half of 2021 as the longwall reaches
- Costs per ton, excluding Shoal Creek are expected to be \$93.
- The Shoal Creek prep plant upgrade project remains on schedule with completion expected in mid Q3. Negotiatic contract.

Corporate and Other

- SG&A expense guidance has been revised down to \$80 million reflecting further reductions in overhead costs.
- Capital expenditures are now estimated to be \$200 million, a \$25 million reduction from prior guidance, including
- Interest expense is now expected to be approximately \$190 million, including \$40 million of non-cash expense, we debt retirements.
- Peabody also anticipates the following cash impacts for the full year 2021:
- \$60 million related to final reclamation activities
 - \$30 million related to postretirement benefits
 - \$15 million final payment pursuant to settlement with multi-employer pension plan (MEPP), paid in July

Today's earnings call is scheduled for 10 a.m. CT and can be accessed via the company's website at PeabodyEnergy.

Peabody (NYSE: BTU) is a leading coal producer, providing essential products to fuel baseload electricity for emerging foundational infrastructure. Our commitment to sustainability underpins our activities today and helps to shape our strat PeabodyEnergy.com.

Supplemental Information

PRB and Other U.S. Thermal volumes reflect volumes priced as of June 30, 2021. and Other

Seaborne Thermal volumes reflect volumes priced as of June 30, 2021. Realized seaborne thermal export **Theirmal** arises based on sales timing and product quality as well as optimization of price, quality and volumes. In general, the Wambo unpriced products are expected to price with reference to Globalcoal "NEWC" levels and Wilpinjong, with a higher ash content, is anticipated to price at a 5-15% discount to API 5 price levels.

Seablorrelumes are expected to be 3.5 - 4.0 million tons. Metropolitan volumes are expected to be 1.0 million **MetalNogizal**dance has been provided for Shoal Creek.

Certain forward-looking measures and metrics presented are non-GAAP financial and operating/statistical measures. Due to the volatility and variability of certain items needed to reconcile these measures to their nearest GAAP measure, no reconciliation can be provided without unreasonable cost or effort.

ı							
(5	Revenues per Ton, Costs per Ton and Adjusted EBITDA Margin per Ton are metrics used by management to						
	measure each of our mining segment's operating performance. Revenues per Ton and Adjusted EBITDA Margin per Ton are equal to revenues by segment and Adjusted EBITDA by segment, respectively, divided						
	by segment tons sold. Costs per Ton is equal to Revenues per Ton less Adjusted EBITDA Margin per Ton. Management believes Costs per Ton and Adjusted						
	EBITDA Margin per Ton best reflect controllable costs and operating results at the mining segment level. We consider all measures reported on a per ton basis to						
	be operating/statistical measures; however, we include reconciliations of the related non-GAAP financial						
	measures (Adjusted EBITDA and Total Reporting Segment Costs) in the "Reconciliation of Non-GAAP Financial Measures" section in this document.						
(6	Includes revenue-based production taxes and royalties; excludes depreciation, depletion and amortization; asset retirement obligation expenses; selling and administrative expenses; restructuring charges; asset impairment; amortization of take-or-pay contract-based intangibles; and certain other costs related to post-mining activities.

Reconciliation of Non-GAAP Financial Measures (Unaudited)

For the Quarters and Six Months Ended Jun. 30, 2021 and 2020

(Dollars In Millions)

Note: Management believes that non-GAAP performance measures are used by investors to measure our operating performance and lenders to measure our ability to incur and service debt. These measures are not intended to serve as alternatives to U.S. GAAP measures of performance and may not be comparable to similarly-titled measures presented by other companies.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the securities laws. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts. They often include words or variation of words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "projects," "forecasts," "targets," "would," "will," "should," "goal," "could" or "may" or other similar expressions. Forward-looking statements provide management's current expectations or predictions of future conditions, events or results. All statements that address operating performance, events, or developments that Peabody expects will occur in the future are forward-looking statements. They may include estimates of sales and other operating performance targets, cost savings, capital expenditures, other expense items, actions relating to strategic initiatives, demand for the company's products, liquidity, capital structure, market share, industry volume, other financial items, descriptions of management's plans or objectives for future operations and descriptions of assumptions underlying any of the above. All forward-looking statements speak only as of the date they are made and reflect Peabody's good faith beliefs, assumptions and expectations, but they are not guarantees of future performance or events. Furthermore, Peabody disclaims any obligation to publicly update or revise any forward-looking statement, except as required by law. By their nature, forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. Factors that might cause such differences include, but are not limited to, a variety of economic, competitive and regulatory factors, many of which are beyond Peabody's control, including the ongoing impact of the COVID-19 pandemic and factors that are described in Peabody's Annual Report on Form 10-K for the fiscal year ended Dec. 31, 2020, and other factors that Peabody may describe from time to time in other filings with the SEC. You may get such filings for free at Peabody's website at www.peabodyenergy.com. You should understand that it is not possible to predict or identify all such factors and, consequently, you should not consider any such list to be a complete set of all potential risks or uncertainties.
