

# Chevron Announces Third Quarter 2021 Results

29.10.2021 | [Business Wire](#)

- Reported earnings of \$6.1 billion
- Cash flow from operations of \$8.6 billion; record free cash flow of \$6.7 billion
- Share repurchases of \$625 million

[Chevron Corp.](#) (NYSE: CVX) today reported earnings of \$6.1 billion (\$3.19 per share - diluted) for third quarter 2021, compared with a loss of \$207 million (\$0.12 per share - diluted) in third quarter 2020. Included in the current quarter were asset sale gains of \$200 million and pension settlement costs of \$81 million. Foreign currency effects increased earnings by \$305 million. Adjusted earnings of \$5.7 billion (\$2.96 per share - diluted) in third quarter 2021 compares to adjusted earnings of \$340 million (\$0.18 per share - diluted) in third quarter 2020. For a reconciliation of adjusted earnings/(loss), see Attachment 5.

Sales and other operating revenues in third quarter 2021 were \$43 billion, compared to \$24 billion in the year-ago period.

## Earnings Summary

	Three Months Ended Sept. 30		Nine Months Ended Sept. 30	
Millions of dollars	2021	2020	2021	2020
Earnings by business segment				
Upstream	\$5,135	\$235	\$10,663	\$(2,934)
Downstream	1,310	292	2,154	385
All Other	(334)	(734)	(2,247)	(2,329)
Total <sup>(1)(2)</sup>	\$6,111	\$(207)	\$10,570	\$(4,878)

<sup>(1)</sup> Includes foreign currency effects \$305 \$(188) \$346 \$(111)

<sup>(2)</sup> Net income attributable to [Chevron Corp.](#) (See Attachment 1)

"Third quarter earnings were the highest since first quarter 2013 largely due to improved market conditions, strong operational performance and a lower cost structure," said Mike Wirth, Chevron's chairman and chief executive officer.

"Our free cash flow during the quarter was the best ever reported by the company," Wirth added. "We paid dividends of \$2.6 billion, reduced debt by \$5.6 billion, and repurchased \$625 million of shares during the quarter."

Chevron continued to exercise capital discipline and actively manage its portfolio to advance its higher return, lower carbon objectives. Year-to-date capital spending was down 22 percent from a year ago. The company announced an agreement with Neste Oyj to acquire their Group III base oil business and brand, NEXBASE™, and completed the acquisition of an equity interest in American Natural Gas LLC and its network of 60 compressed natural gas stations to grow its renewable natural gas value chain. In addition, the company completed the sales of several conventional Permian Basin properties during the quarter.

## UPSTREAM

Worldwide net oil-equivalent production was 3.03 million barrels per day in third quarter 2021, an increase of 7 percent from a year ago.

#### U.S. Upstream

	Three Months Ended Sept. 30		Nine Months Ended Sept. 30	
Millions of dollars	2021	2020	2021	2020
Earnings	\$1,962	\$116	\$4,349	\$(1,709)

U.S. upstream operations earned \$1.96 billion in third quarter 2021, compared with \$116 million a year earlier. The improvement was primarily due to higher crude oil realizations and sales volumes. Gains on assets sales during the quarter also contributed to the improvement between periods.

The company's average sales price per barrel of crude oil and natural gas liquids was \$58 in third quarter 2021, up from \$31 a year earlier. The average sales price of natural gas was \$3.25 per thousand cubic feet in third quarter 2021, up from \$0.89 in last year's third quarter.

Net oil-equivalent production of 1.13 million barrels per day in third quarter 2021 was up 145,000 barrels per day from a year earlier. The increase was due to an additional 224,000 barrels per day of production following the Noble Energy acquisition, partially offset by a 69,000 barrels per day decrease related to the Appalachian asset sale. The net liquids component of oil-equivalent production in third quarter 2021 increased 15 percent to 842,000 barrels per day, and net natural gas production increased 13 percent to 1.71 billion cubic feet per day, compared to last year's third quarter.

#### International Upstream

	Three Months Ended Sept. 30		Nine Months Ended Sept. 30	
Millions of dollars	2021	2020	2021	2020
Earnings*	\$3,173	\$119	\$6,314	\$(1,225)
*Includes foreign currency effects	\$285	\$(107)	\$311	\$99

International upstream operations earned \$3.17 billion in third quarter 2021, compared with \$119 million a year ago. The increase in earnings was primarily due to higher realizations and sales volumes. Foreign currency effects had a favorable impact on earnings of \$392 million between periods.

The average sales price for crude oil and natural gas liquids in third quarter 2021 was \$68 per barrel, up from \$39 a year earlier. The average sales price of natural gas was \$6.28 per thousand cubic feet in the third quarter, up from \$3.89 in last year's third quarter.

Net oil-equivalent production of 1.91 million barrels per day in third quarter 2021 was up 55,000 barrels per day from third quarter 2020. Higher production of an additional 158,000 barrels per day following the Noble Energy acquisition and lower production curtailments, were partially offset by unfavorable entitlement effects, normal field declines, and operational impacts that were mainly due to the planned turnaround at Tengizchevroil. The net liquids component of oil-equivalent production decreased 6 percent to 915,000 barrels per day in third quarter 2021, while net natural gas production of 5.95 billion cubic feet per day increased 13 percent, compared to last year's third quarter.

#### DOWNSTREAM

##### U.S. Downstream

	Three Months Ended Sept. 30		Nine Months Ended Sept. 30	
Millions of dollars	2021	2020	2021	2020
Earnings	\$1,083	\$141	\$1,729	\$(397)

U.S. downstream operations reported earnings of \$1.08 billion in third quarter 2021, compared with \$141 million a year earlier. The increase was mainly due to higher margins on refined product sales, higher earnings from the 50 percent-owned Chevron Phillips Chemical Company, and higher sales volumes.

Refinery crude oil input in third quarter 2021 increased 9 percent to 895,000 barrels per day from the year-ago period, as the company increased refinery runs in response to higher demand and the improved refining margin environment.

Refined product sales of 1.19 million barrels per day were up 18 percent from the year-ago period, mainly due to higher gasoline, jet fuel, and diesel demand as travel restrictions associated with the COVID-19 pandemic continue to ease.

#### International Downstream

	Three Months Ended Sept. 30		Nine Months Ended Sept. 30	
Millions of dollars	2021	2020	2021	2020
Earnings*	\$227	\$151	\$425	\$782

\*Includes foreign currency effects \$123 \$(49) \$183 \$(12)

International downstream operations reported earnings of \$227 million in third quarter 2021, compared with \$151 million a year earlier. Foreign currency effects had a favorable impact on earnings of \$172 million between periods, partially offset by higher operating expenses that were mostly related to transportation.

Refinery crude oil input of 584,000 barrels per day in third quarter 2021 increased 2 percent from the year-ago period.

Refined product sales of 1.39 million barrels per day in third quarter 2021 increased 8 percent from the year-ago period, mainly due to higher demand for gasoline and jet fuel.

#### ALL OTHER

	Three Months Ended Sept. 30		Nine Months Ended Sept. 30	
Millions of dollars	2021	2020	2021	2020
Net Charges*	\$(334)	\$(734)	\$(2,247)	\$(2,329)

\*Includes foreign currency effects \$(103) \$(32) \$(148) \$(198)

All Other consists of worldwide cash management and debt financing activities, corporate administrative functions, insurance operations, real estate activities and technology companies.

Net charges in third quarter 2021 were \$334 million, compared to \$734 million a year earlier. The decrease in net charges between periods was mainly due to favorable tax items and lower corporate charges. Foreign currency effects increased net charges by \$71 million between periods.

## CASH FLOW FROM OPERATIONS

Cash flow from operations in the first nine months of 2021 was \$19.7 billion, compared with \$8.3 billion in 2020. Excluding working capital effects, cash flow from operations in the first nine months of 2021 was \$21.2 billion, compared with \$8.4 billion in 2020.

## CAPITAL AND EXPLORATORY EXPENDITURES

Capital and exploratory expenditures in the first nine months of 2021 were \$8.1 billion, compared with \$10.3 billion in 2020. The amounts included \$2.3 billion in 2021 and \$3.1 billion in 2020 for the company's share of expenditures by affiliates, which did not require cash outlays by the company. Expenditures for upstream represented 84 percent of the company-wide total in 2021.

Chevron is one of the world's leading integrated energy companies. We believe affordable, reliable and ever-cleaner energy is essential to achieving a more prosperous and sustainable world. Chevron produces crude oil and natural gas; manufactures transportation fuels, lubricants, petrochemicals and additives; and develops technologies that enhance our business and the industry. We are focused on lowering the carbon intensity in our operations and seeking to grow lower carbon businesses along with our traditional business lines. More information about Chevron is available at [www.chevron.com](http://www.chevron.com).

## NOTICE

Chevron's discussion of third quarter 2021 earnings with security analysts will take place on Friday, October 29, 2021, at 8:00 a.m. PT. A webcast of the meeting will be available in a listen-only mode to individual investors, media, and other interested parties on Chevron's website at [www.chevron.com](http://www.chevron.com) under the "Investors" section. Prepared remarks for today's call, additional financial and operating information and other complementary materials will be available prior to the call at approximately 3:15 a.m. PT and located under "Events and Presentations" in the "Investors" section on the Chevron website.

As used in this news release, the term "Chevron" and such terms as "the company," "the corporation," "our," "we," "us" and "its" may refer to [Chevron Corp.](http://Chevron Corp.), one or more of its consolidated subsidiaries, or to all of them taken as a whole. All of these terms are used for convenience only and are not intended as a precise description of any of the separate companies, each of which manages its own affairs.

Please visit Chevron's website and Investor Relations page at [www.chevron.com](http://www.chevron.com) and [www.chevron.com/investors](http://www.chevron.com/investors), LinkedIn: [www.linkedin.com/company/chevron](http://www.linkedin.com/company/chevron), Twitter: @Chevron, Facebook: [www.facebook.com/chevron](http://www.facebook.com/chevron), and Instagram: [www.instagram.com/chevron](http://www.instagram.com/chevron), where Chevron often discloses important information about the company, its business, and its results of operations.

**Non-GAAP Financial Measures** - This news release includes adjusted earnings/(loss), which reflect earnings or losses excluding significant non-operational items including impairment charges, write-offs, severance costs, Noble Energy acquisition costs, gains on asset sales, unusual tax items, effects of pension settlements and curtailments, foreign currency effects and other special items. During the first quarter of 2021, the Company updated its calculation of adjusted earnings to exclude pension settlement costs. The Company recognizes settlement gains or losses when the cost of all settlements for a plan during a year is greater than the sum of its service and interest costs during the year. By adjusting earnings to exclude pension settlement costs, the Company believes it removes non-operational costs that would otherwise obscure its underlying operating results. Adjusted earnings/(loss) for 2020 were recast to conform with the current presentation. We believe it is useful for investors to consider this measure in comparing the underlying performance of our business across periods. The presentation of this additional information is not meant to be considered in isolation or as a substitute for net income (loss) as prepared in accordance with U.S. GAAP. A reconciliation to net income (loss) attributable to [Chevron Corp.](http://Chevron Corp.) is shown in Attachment 5.

This news release also includes free cash flow and free cash flow excluding working capital. Free cash flow is defined as net cash provided by operating activities less cash capital expenditures, and represents the cash available to creditors and investors after investing in the business. Free cash flow excluding working capital is defined as net cash provided by operating activities excluding working capital less cash capital expenditures and represents the cash available to creditors and investors after investing in the business

excluding the timing impacts of working capital. The company believes these measures are useful to monitor the financial health of the company and its performance over time. A reconciliation of free cash flow and free cash flow excluding working capital are shown in Attachment 3.

#### CAUTIONARY STATEMENTS RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF "SAFE HARBOR" PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This news release contains forward-looking statements relating to Chevron's operations that are based on management's current expectations, estimates and projections about the petroleum, chemicals and other energy-related industries. Words or phrases such as "anticipates," "expects," "intends," "plans," "targets," "advances," "commits," "drives," "aims," "forecasts," "projects," "believes," "approaches," "seeks," "schedules," "estimates," "positions," "pursues," "may," "can," "could," "should," "will," "budgets," "outlook," "trends," "guidance," "focus," "on track," "goals," "objectives," "strategies," "opportunities," "poised," "potential," "ambitions," "aspires" and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, many of which are beyond the company's control and are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. The reader should not place undue reliance on these forward-looking statements, which speak only as of the date of this news release. Unless legally required, Chevron undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

Among the important factors that could cause actual results to differ materially from those in the forward-looking statements are: changing crude oil and natural gas prices and demand for the company's products, and production curtailments due to market conditions; crude oil production quotas or other actions that might be imposed by the Organization of Petroleum Exporting Countries and other producing countries; technological advancements; changes to government policies in the countries in which the company operates; development of large carbon capture and offset markets; public health crises, such as pandemics (including coronavirus (COVID-19)) and epidemics, and any related government policies and actions; disruptions in the company's global supply chain, including supply chain constraints; changing economic, regulatory and political environments in the various countries in which the company operates; general domestic and international economic and political conditions; changing refining, marketing and chemicals margins; the company's ability to realize anticipated cost savings, expenditure reductions and efficiencies associated with enterprise transformation initiatives; actions of competitors or regulators; timing of exploration expenses; timing of crude oil liftings; the competitiveness of alternate-energy sources or product substitutes; the results of operations and financial condition of the company's suppliers, vendors, partners and equity affiliates, particularly during the COVID-19 pandemic; the inability or failure of the company's joint-venture partners to fund their share of operations and development activities; the potential failure to achieve expected net production from existing and future crude oil and natural gas development projects; potential delays in the development, construction or start-up of planned projects; the potential disruption or interruption of the company's operations due to war, accidents, political events, civil unrest, severe weather, cyber threats, terrorist acts, or other natural or human causes beyond the company's control; the potential liability for remedial actions or assessments under existing or future environmental regulations and litigation; significant operational, investment or product changes undertaken or required by existing or future environmental statutes and regulations, including international agreements and national or regional legislation and regulatory measures to limit or reduce greenhouse gas emissions; the potential liability resulting from pending or future litigation; the company's future acquisitions or dispositions of assets or shares or the delay or failure of such transactions to close based on required closing conditions; the potential for gains and losses from asset dispositions or impairments; government mandated sales, divestitures, recapitalizations, taxes and tax audits, tariffs, sanctions, changes in fiscal terms or restrictions on scope of company operations; foreign currency movements compared with the U.S. dollar; material reductions in corporate liquidity and access to debt markets; the receipt of required Board authorizations to pay future dividends; the effects of changed accounting rules under generally accepted accounting principles promulgated by rule-setting bodies; the company's ability to identify and mitigate the risks and hazards inherent in operating in the global energy industry; and the factors set forth under the heading "Risk Factors" on pages 18 through 23 of the company's 2020 Annual Report on Form 10-K and in subsequent filings with the U.S. Securities and Exchange Commission. Other unpredictable or unknown factors not discussed in this news release could also have material adverse effects on forward-looking statements.
