

Tudor Gold Prepares for 2022 Drill Hole Program at Treaty Creek Gold Project, Northwest British Columbia

07.04.2022 | [Newsfile](#)

Vancouver, April 7, 2022 - [Tudor Gold Corp.](#) (TSXV: TUD) (FSE: TUC) (the "Company" or "Tudor Gold") is pleased to announce that crews have been mobilized to prepare for the Company's upcoming exploration program at their flagship property, Treaty Creek, located in the heart of the Golden Triangle of Northwest British Columbia. Crews are currently transporting heavy equipment and drilling supplies to site along our winter access from the Brucejack Lake Road. Crews will also be preparing the camps for the upcoming drill campaign set to commence early May.

Tudor Gold's President and CEO, Ken Konkin, P.Geo., states, "As in the previous season, the priority of our upcoming exploration program will be to expand and define the limits of the Goldstorm Deposit (GS), as mineralization remains open in all directions and at depth. Ten diamond drill rigs are scheduled to be mobilized to site throughout the month of May for an aggressive diamond drilling program. While the priority remains to complete the exploration and definition of the Goldstorm Deposit, exploration drilling will follow up on several other discoveries including the Eureka Zone (EZ), located 800 meters southeast of GS, and the Company's newest discovery, Calm Before the Storm (CBS), located two kilometres northeast of GS. Tudor's priority is to define the limits of the GS mineralized domains in order to complete an updated resource estimate and support a Preliminary Economic Assessment (PEA). At the end of the 2021 drill program, some of our best Au-Cu-Ag results were encountered from our step-out drilling to the north within the 300H and CS-600 domains from drill holes GS-21-113 (1.44 g/t Au Eq over 405.0 meters within CS-600), GS-21-113-W1 (2.35 g/t AuEq over 159.0 meters within 300H) and GS-21-113-W2 (1.38 g/t AuEq over 556.5 meters within CS-600). To the northeast, we encountered some of strongest gold mineralization within the DS-5 domain with drill hole GS-21-119 (1.76 g/t AuEq over 196.5 meters). Not only is the size of the deposit increasing, but the values are also some of the highest that we have received within GS and these latter drill holes are those which we will be stepping out from in 2022."

This season, [Tudor Gold Corp.](#) and our associated service companies will continue to focus on measures to maintain the highest professional standards while working within COVID-19 health and safety protocols. Only essential personnel are permitted to enter the camp and staging areas. Of those workers who are at the project site and staging site, we have strict daily monitoring of the workers temperatures and general health conditions. We plan to have a certified paramedic at the staging area to examine and test all in-coming and out-going workers of all Tudor personnel including all service providers.

Qualified Person

The Qualified Person for this news release for the purposes of National Instrument 43-101 is the Company's President and CEO, Ken Konkin, P.Geo. He has read and approved the scientific and technical information that forms the basis for the disclosure contained in this news release.

About Tudor Gold Corp.

[Tudor Gold Corp.](#) is a precious and base metals exploration and development company with properties in British Columbia's Golden Triangle (Canada), an area that hosts producing and past-producing mines and several large deposits that are approaching potential development. The 17,913 hectare Treaty Creek project (in which TUDOR GOLD has a 60% interest) borders [Seabridge Gold Inc.](#)'s KSM property to the southwest and borders [Pretium Resources Inc.](#)'s Brucejack property to the southeast. In April 2021, Tudor published their 43-101 technical report, "Technical Report and Initial Mineral Resource Estimate of the Treaty Creek Gold Property, Skeena Mining Division, British Columbia Canada" dated March 1, 2021 on the Company's SEDAR profile. The Company also has a 100% interest in the Crown project and a 100% interest in the Eskay North project, all located in the Golden Triangle area.

ON BEHALF OF THE BOARD OF DIRECTORS OF [Tudor Gold Corp.](#)
"Ken Konkin"

Ken Konkin
President and Chief Executive Officer

Cautionary Note Regarding Forward-looking Information

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

This news release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. "Forward-looking information" includes, but is not limited to, statements with respect to the activities, events or developments that the Company expects or anticipates will or may occur in the future, including the expectation that the Offering will close in the timeframe and on the terms as anticipated by management. Generally, but not always, forward-looking information and statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or the negative connotation thereof or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative connotation thereof.

Such forward-looking information and statements are based on numerous assumptions, including among others, that the Company will complete Offering in the timeframe and on the terms as anticipated by management. Although the assumptions made by the Company in providing forward-looking information or making forward-looking statements are considered reasonable by management at the time, there can be no assurance that such assumptions will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements.

Important factors that could cause actual results to differ materially from the Company's plans or expectations include risks relating to the failure to complete the Offering in the timeframe and on the terms as anticipated by management, market conditions and timeliness regulatory approvals. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information or implied by forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking information and statements will prove to be accurate, as actual results and future events could differ materially from those anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements or information.
