Our team of talented professionals is dedicated to driving growth and implementing cost-efficient measures to support the continued expansion of our ASM gold ore-processing business. With this unwavering commitment to excellence, we remain optimistic about the future of our company and confident in the opportunities that lie ahead."

To achieve these goals, Dynacor Group plans to invest up to \$US 7.0 million in capital expenditures in 2023 at our Veta Dorada plant for new efficiency improvement equipment, increasing tailing pond capacity and additional vehicles for our ore purchase team.

The Corporation has also budgeted approximately \$1.0 million to advance other projects in other jurisdictions.

Dynacor will provide regular updates throughout the year to keep shareholders informed and engaged. The next guidance update will be provided during our quarterly earnings report in May 2023.
