

Caledonia Mining Corporation Plc Results for the Year ended December 31, 2022

24.03.2023 | [GlobeNewswire](#)

ST HELIER, March 24, 2023 - [Caledonia Mining Corporation plc](#) ("Caledonia" or the "Company") (NYSE AMERICAN: CMCL; AIM: CMCL; VFEX: CMCL) announces its operating and financial results for the year ended December 31, 2022 (the "Year"). Further information on the financial and operating results for the Year and the quarter ended December 31, 2022 (the "Quarter" or "Q4") can be found in the Management Discussion and Analysis ("MD&A"), and the audited financial statements which are available on the Company's website and have been filed on SEDAR.

2022 Financial Highlights (USD)

- Gross revenues of \$142 million (2021: \$121 million).
- Gross profit of \$61.8 million (2021: \$54.1 million).
- EBITDA of \$50.4 million (2021: \$46.4 million).
- On-mine cost per ounce¹ of \$735 (2021: \$742).
- All-in sustaining cost per ounce¹ of \$878 (2021: \$856).
- Adjusted earnings per share (EPS)¹ of 219.9 cents (2021: 225.9 cents).
- Net cash from operating activities of \$42.6 million (2021: \$30.9 million).
- Net cash and cash equivalents of \$1.5 million (2021: \$16.3 million).
- Dividend paid of 56 cents per share (2021: 50 cents per share).

Operating Highlights

- 80,775 ounces ("oz") of gold produced in the Year (2021: 67,476oz); record annual production at Blanket Mine and achieving the Company's long-term production target.
- During Q4, Caledonia completed the acquisition of a company owning the mining lease for Motapa, a property contiguous to the Bilboes gold project with the potential of gold processing synergy.
- In the Quarter, the 12.2 MWac solar plant at Blanket Mine started to generate power.

Post Year-end events and Outlook

- Regrettably, a fatal accident occurred on February 16, 2023. The directors and management of Caledonia and Blanket express their sincere condolences to the family and colleagues of the deceased. Caledonia takes the safety of its employees very seriously and, accordingly, measures have been taken to reinforce adherence to prescribed safety procedures.
- 2023 combined gold production guidance of between 87,500 - 97,000oz comprised of:
 - 75,000 - 80,000oz from Blanket.²
 - 12,500 - 17,000oz from the oxide operation at Bilboes.³
- In January the Company completed the acquisition of the Bilboes gold project in Zimbabwe.
 - A large high-grade gold deposit.
 - The project has NI 43-101 compliant proven and probable mineral reserves of 1.96 million ounces ("Moz") of gold in 26.64 million tonnes ("Mt") at a grade of 2.29 grams per ton ("g/t") and measured and indicated mineral resources of 2.56 Moz of gold in 35.18Mt at a grade of 2.26 g/t and inferred mineral resources of 577,000oz of gold in 9.48Mt at a grade of 1.89 g/t.⁴
- In February the Company released an update to the NI 43-101 compliant mineral resources and reserves at Blanket Mine. The total measured and indicated mineral resources inclusive of mineral reserves has increased from the most recently published estimate by 52% to 1,095,000oz of gold in 10.72Mt at a grade of 3.18 g/t and the total mineral reserves increased by 1% to 395,000oz of gold in 3.94Mt at a grade of 3.12 g/t⁵.

Conference Call

Management will host a conference call on March 28, 2023 to discuss the 2022 results and the outlook for

the Company. The details for this call are set out towards the end of this announcement.

Mark Learmonth, Chief Executive Officer, commented:

"Operationally, the last 12 months have marked a turning point for the business, and I am delighted that we hit our long-term target of just over 80,000oz. The last couple of years has seen a tremendous amount of change in the Company as we pivot the direction of the business towards becoming a multi-asset gold producer in Zimbabwe. We have always seen huge geological potential in the country and are very excited about the portfolio of attractive new assets that we have acquired.

"In November we purchased Motapa, an asset we consider to be highly prospective and strategically important in our growth ambitions, as it is a large exploration property which is contiguous to the Bilboes gold project.

"In January 2023, following the satisfaction of conditions precedent, we closed the acquisition of the Bilboes Gold Project. A feasibility study prepared by the vendors indicates the potential for an open-pit gold mine producing an average of 168,000oz per year over a 10-year life of mine. Caledonia has commissioned its own feasibility study to identify the most judicious way to commercialise the project to optimize shareholder returns. One approach that will be considered is a phased development which would minimise the initial capital investment and reduce the need for third party funding. The Company has also restarted the oxide operations at Bilboes providing immediate cash-flow and has given guidance of between 12,500 - 17,000oz for 2023.

"In November 2022, the Company's 12.2 MWac solar plant was connected to the Blanket grid and the mine has since been receiving 27% of its energy from solar. The solar power will displace power from the grid and from the diesel generators and is expected to reduce Caledonia's consolidated cost per ounce of gold produced by approximately \$37. This completion happily coincides with an improvement in the supply of power from the Zimbabwe grid which has substantially reduced the amount of diesel consumed. We are confident that we will continue to see an ongoing meaningful reduction to our diesel usage month on month, fully justifying our investment in solar power and delivering on our Environmental Social Governance strategy.

"The quarterly dividend continues to be an important part of the Company's strategy and during the Year we paid a quarterly dividend of 14 cents a share, providing a healthy yield to our shareholders. We believe the dividend coupled with our growth strategy makes us an attractive investment and sets us apart from our industry peers.

"I would like to thank the Caledonia team for their continued hard work, and I look forward to updating shareholders of our progress."

Conference Call Details

A presentation of the 2022 results and outlook for Caledonia is available on Caledonia's website (www.caledoniamining.com). Management will host a conference call at 2 pm London Time on March 28, 2023.

Details for the call are as follows:

When: March 28, 2023 02:00 PM London Time
Topic: 2022 Full Year and Q4 Results call for Shareholders

Register in advance for this webinar:
https://caledoniamining.zoom.us/webinar/register/WN_kZXEkM8AQZajiCX55eqLBA

After registering, you will receive a confirmation email containing information about joining the webinar.

Mr Dana Roets (B Eng (Min.), MBA, Pr.Eng., FSAIMM, AMMSA), Chief Operating Officer, is the Company's qualified person as defined by Canada's National Instrument 43-101 and has approved any scientific or technical information contained in this news release.

Cautionary Note Concerning Forward-Looking Information

Information and statements contained in this news release that are not historical facts are "forward-looking information" within the meaning of applicable securities legislation that involve risks and uncertainties relating, but not limited to Caledonia's current expectations, intentions, plans, and beliefs. Forward-looking information can often be identified by forward-looking words such as "anticipate", "believe", "expect", "goal", "plan", "target", "intend", "estimate", "could", "should", "may" and "will" or the negative of these terms or similar words suggesting future outcomes, or other expectations, beliefs, plans, objectives, assumptions, intentions or statements about future events or performance. Examples of forward-looking information in this news release include: production guidance, estimates of future/targeted production rates, and our plans and timing regarding further exploration and drilling and development. This forward-looking information is based, in part, on assumptions and factors that may change or prove to be incorrect, thus causing actual results, performance or achievements to be materially different from those expressed or implied by forward-looking information. Such factors and assumptions include, but are not limited to: failure to establish estimated resources and reserves, the grade and recovery of ore which is mined varying from estimates, success of future exploration and drilling programs, reliability of drilling, sampling and assay data, assumptions regarding the representativeness of mineralization being inaccurate, success of planned metallurgical test-work, capital and operating costs varying significantly from estimates, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects and other factors.

Security holders, potential security holders and other prospective investors should be aware that these statements are subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from those suggested by the forward-looking statements. Such factors include, but are not limited to: risks relating to estimates of mineral reserves and mineral resources proving to be inaccurate, fluctuations in gold price, risks and hazards associated with the business of mineral exploration, development and mining, risks relating to the credit worthiness or financial condition of suppliers, refiners and other parties with whom the Company does business; inadequate insurance, or inability to obtain insurance, to cover these risks and hazards, employee relations; relationships with and claims by local communities and indigenous populations; political risk; risks related to natural disasters, terrorism, civil

unrest, public health concerns (including health epidemics or outbreaks of communicable diseases such as the coronavirus (COVID-19)); availability and increasing costs associated with mining inputs and labour; the speculative nature of mineral exploration and development, including the risks of obtaining or maintaining necessary licenses and permits, diminishing quantities or grades of mineral reserves as mining occurs; global financial condition, the actual results of current exploration activities, changes to conclusions of economic evaluations, and changes in project parameters to deal with unanticipated economic or other factors, risks of increased capital and operating costs, environmental, safety or regulatory risks, expropriation, the Company's title to properties including ownership thereof, increased competition in the mining industry for properties, equipment, qualified personnel and their costs, risks relating to the uncertainty of timing of events including targeted production rate increase and currency fluctuations. Security holders, potential security holders and other prospective investors are cautioned not to place undue reliance on forward-looking information. By its nature, forward-looking information involves numerous assumptions, inherent risks and uncertainties, both general and specific, that contribute to the possibility that the predictions, forecasts, projections and various future events will not occur. Caledonia undertakes no obligation to update publicly or otherwise revise any forward-looking information whether as a result of new information, future events or other such factors which affect this information, except as required by law.

National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("NI 43-101") is a rule of the Canadian Securities Administrators which establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. Unless otherwise indicated, all reserves and resource estimates contained in this press release have been prepared in accordance with NI 43-101 and the Canadian Institute of Mining, Metallurgy and Petroleum Classification System. These standards differ from the requirements of 1300 S-K adopted by the SEC, and reserve and resource information contained in this press release may not be comparable to similar information disclosed by U.S. companies. The requirements of NI 43-101 for identification of reserves and resources are also not the same as those of 1300 S-K, and any reserves or resources reported in compliance with NI 43-101 may not qualify as "reserves" or "resources" under 1300 S-K. Accordingly, the mineral reserve and resource information set forth herein may not be comparable to information made public by companies that report in accordance with United States standards.

This news release is not an offer of the shares of Caledonia for sale in the United States or elsewhere. This news release shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the shares of Caledonia, in any province, state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such province, state or jurisdiction.
