"The Kenville Gold Mine, established in 1888, was one of the first underground gold mines in British Columbia. We have worked tirelessly on obtaining the necessary permits for this specific site, and now we are proud to announce that the Kenville Gold Mine is well on its way to becoming one of the greenest and most sustainable gold mines in Southern British Columbia," says Christopher Anderson, CEO of Ximen Mining.

"With high expectations and a strong sense of commitment, we are working hard to achieve the next phase of milestones, which will ultimately bring the Kenville Gold Mine to fruition. As we move forward, we anticipate providing a steady flow of updates to keep everyone informed," adds Anderson.

The permit includes the following conditions:

- Provide surface water runoff control works for all areas of the site where runoff is generated. (Completed & being Review)
- Implement the Site-wide Water Management Plan (WMP) and ensure the WMP is kept up-to date. (Completed)
- Implement the Nitrogen Management Plan (NMP) and review the NMP annually. (Completed)
- Conduct a discharge monitoring program (three specified sites) - (Completed)
- Conduct a surface water monitoring program (seven sites) - (Completed)
- Within 45 days of commencement of discharge, submit a summary report for the water quality results of the discharge from the underground mine. (Completed ready for submission)

The Company is extremely pleased to have received this all-important environmental permit. The required documentation is now being prepared and once approved the authorized works will be constructed and the underground mine development will kick-off.
