

WaterBridge NDB and Devon Energy Form Strategic Delaware Basin Produced Water Partnership

07.08.2023 | [PR Newswire](#)

HOUSTON, Aug. 7, 2023 - WaterBridge NDB LLC (together with its subsidiaries, "WaterBridge NDB"), a portfolio company of Five Point Energy LLC ("Five Point"), announced today the formation of NDB Midstream LLC, a strategic partnership with White & Case Permian, LLC ("Devon"), a subsidiary of [Devon Energy Corp.](#) (NYSE: DVN). The partnership between two technical leaders in the produced water handling sector and Devon with 50-plus years of innovation in oil and gas, will create the largest private water infrastructure system in the prolific Stateline region of the Delaware Basin in Loving County, Texas and Eddy counties in New Mexico.

In connection with the transaction, Devon and NDB Midstream entered into a long-term agreement pursuant to which Devon committed all of its produced water within a large area of mutual interest, including an initial dedication of ~52,000 acres, to NDB Midstream. NDB Midstream will contribute 18 SWDs with ~375,000 bpd of permitted capacity and ~210 miles of produced water pipeline for gathering, transportation, disposal and reuse. As part of the transaction, Devon received a 30% equity interest in NDB Midstream as well as a commitment by Five Point to fund a portion of the initial build of the system expansion.

"We are excited about this partnership which will provide Devon with a significant increase in permitted water handling capacity, delivering both reliable flow assurance and access to abundant resources and infrastructure to support Devon's future growth plans and the company's produced water reuse and recycling operations" said Greg Horne, Vice President, Marketing and Sales, NDB Midstream, of Devon and Board member of NDB Midstream. As part of the transaction, NDB Midstream is developing a large-scale water transportation, handling and recycling system in the Stateline region, primarily located on land owned by Five Point's land management platform, DBR Land LLC.

David Capobianco, CEO of Five Point Energy and Chairman of WaterBridge NDB, said: "Our joint venture with Devon is the largest in the water sector to date, and is transformative for WaterBridge as it significantly expands our industry-leading platform's scale, commercial reach and strategic value." Mr. Capobianco continued, "Since WaterBridge's founding in 2012, we have been pioneers of midstream water management, progressively addressing the produced water needs of our blue-chip customers and reducing reliance on freshwater sources for drilling and completion activities. The future of WaterBridge could not be brighter as we work to bring incredibly innovative solutions to market in the near future, including desalination hubs."

Latham & Watkins LLP and Winston & Strawn LLP served as legal counsel to WaterBridge NDB and White & Case Permian, LLC served as legal counsel to Devon.

About WaterBridge NDB LLC

WaterBridge NDB is a portfolio company of Five Point Energy that operates full-cycle produced water transportation, handling, recycling and reuse and disposal under long-term contracts with customers in the northern Delaware Basin, and the Eastern Delaware Basin. WaterBridge NDB and its affiliate WaterBridge Holdings LLC, a portfolio company of Five Point Energy and GIC, operates in the southern Delaware Basin in West Texas and the Arkoma Basin in Oklahoma, together comprise the largest private produced water midstream business in the industry. Headquartered in Houston, Texas, WaterBridge benefits from a first-mover advantage in the emerging water midstream sector with the most experienced management team in the industry.
