

# Sonoro Energy Ltd. Operations Update

20.11.2023 | [The Newswire](#)

This press release is not to be disseminated in the United States

Calgary, November 20, 2023 - [Sonoro Energy Ltd.](#) ("Sonoro" or the "Company") (TSXV:SNV) announces that the 11-30-32-23W3 well was drilled to a depth of 897.5 meters and encountered the edge of the targeted Waseca Channel.

Drilling operations were safely and successfully conducted on budget and the drilling rig has been released. The well did encounter oil shows in the Waseca and has been cased with thermal cement pending further review. The Company will evaluate the potential of a side track with a horizontal well to go up structure to the expected oil leg after we complete the multilateral horizontal well.

Sonoro is continuing to prepare for the previously announced multilateral horizontal well, which is approximately 1.5 km away from the vertical well and extending a further 500 m laterally. The results from the 11-30 vertical well are independent of the expectations for the multilateral horizontal well.

## Forward-looking Statements

Certain information in this news release constitutes forward-looking statements under applicable securities laws. Any statements that are contained in this news release that are not statements of historical fact may be deemed to be forward-looking statements. Forward-looking statements are often identified by terms such as "may," "should," "anticipate," "expects," "estimates," "seeks" and similar expressions. In particular, without limiting the generality of the foregoing, this news release contains forward-looking information regarding the opportunities discussed.

Forward-looking statements necessarily involve known and unknown risks, including, without limitation, risks associated with oil and gas exploration, development, exploitation, production, marketing and transportation, loss of markets, volatility of commodity prices, currency fluctuations, imprecision of resource and reserve estimates, environmental risks, competition from other producers, inability to retain drilling rigs and other services, delays resulting from or inability to obtain required regulatory approvals, changes in legislation including but not limited to income tax, environmental laws and regulatory matters, the effectiveness of the technology to be employed by the Company, the Company's ability to spend each well in accordance with the Farmin Agreement and its ability to access sufficient capital from internal and external sources. Readers are cautioned that the foregoing list of factors is not exhaustive.

Readers are cautioned not to place undue reliance on forward-looking statements as there can be no assurance that the plans, intentions or expectations upon which they are placed will occur. Such information, although considered reasonable by management at the time of preparation, may prove to be incorrect and actual results may differ materially from those anticipated. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement.

Additional information on these and other factors that could affect Sonoro's operations or financial results are included in Sonoro's reports on file with Canadian securities regulatory authorities and may be accessed through the SEDAR website ([www.sedar.com](http://www.sedar.com)) or by contacting Sonoro. The forward-looking statements contained in this news release are made as of the date of this news release and Sonoro does not undertake any obligation to update publicly or to revise any of the included forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by securities law.

Neither the TSX Venture Exchange nor its Regulation Service Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
