

Galway Announces New Project Manager at Clarence Stream and New Head of Exploration

22.01.2024 | [ACCESS Newswire](#)

TORONTO, January 22, 2024 - [Galway Metals Inc.](#) (TSX.V:GWM)(OTCQB:GAYMF) (the "Company" or "Galway") is pleased to announce the promotion of two geologists, and to reiterate the Company's technical strength, as stated below. The Company's flagship Clarence Stream gold project has a district scale strike length of 65 kilometres, is open in all directions and remains largely unexplored, and has excellent infrastructure in the mining friendly province of New Brunswick, Canada.

"Over the past several years, both Jesse and Rob had the opportunity to further their professional development under the guidance of Mike Sutton, and more recently under the tutelage of Phil Walford and Allan Moran. Jesse and Rob are committed not only to the success at Clarence Stream, but also to exploring other exploration opportunities in New Brunswick and Atlantic Canada in general," cites Robert Hinchcliffe, President and Chief Executive Officer of Galway Metals, "Furthermore, our technical team is strongly motivated to advance the Clarence Stream project. Hopefully, investors' sentiment for junior gold companies will improve, and we will be positioned to implement more aggressive drilling programs at Clarence Stream."

Jesse Fisher, Project Manager, Clarence Stream: Jesse has worked for Galway for four years and is being promoted to Project Manager of Clarence Stream because of his geological and management skills. Prior to joining Galway, Jesse worked as a Mine Geologist for [Trevalli Mining Corp.](#) at the Caribou Mine, Exploration Geologist with Osisko Metals Inc. in the Bathurst Mining Camp (BMC), North American Nickel at the Maniitsoq Nickel Project, and with Crone Geophysics in North Africa and Greenland. Jesse is a Professional Geologist (P.Geo) with APEGNB and obtained his Bachelor of Science at the University of New Brunswick.

Robert Richard, Head of Exploration: Rob Richard has worked for the company for five years and is being promoted to Exploration Manager. Rob has extensive mineral exploration and prospecting experience, which included working on diamond projects in northern Saskatchewan, gold and base metal deposits in New Brunswick and Ontario, uranium deposits in Nunavut, and IOGC deposits in Nova Scotia. The majority of Rob's career has focused on managing exploration projects in New Brunswick, including the Nash Creek and Nepisiquit base metal deposits in the Bathurst mining camp, the Sisson W-Mo deposit, Battery Hill manganese project, Bald Hill antimony and numerous gold deposits including Cape Spencer, Devils Pike, and Golden Ridge. Rob obtained his Bachelor of Science in Geology from the University of New Brunswick.

Phillip Walford, Chief Technical Advisor: Mr. Walford a seasoned mining veteran, most recently as a founder and President and Chief Executive Officer of [Marathon Gold Corp.](#), who's Valentine Lake Project in central Newfoundland was advanced into a four-million-ounce gold project. Mr. Walford's broad experience in developing Valentine Lake and other projects will assist Galway in advancing its Clarence Stream project in nearby New Brunswick. Both Valentine Lake and Clarence Stream are located along the Appalachian Trend and have similar geologic features. Mr. Walford is a registered Professional Geologist with over 40 years' experience. He has extensive international experience in gold and base metal deposits with a focus on resource development and mining. During his career he has raised significant funds for exploration and mine development, and his teams have won Developer of the Year in Ontario, Newfoundland and Labrador. Mr. Walford was a co-winner of the PDAC Bill Dennis Award in 2021 for developing the Valentine Lake project. He is currently a board member and technical advisor to several mining companies.

Allan Moran, CPG, Senior Advisor: Mr. Moran has spent his 40-year plus career in exploration, exploration management, and support of corporate acquisitions for both major and junior mining companies. Moreover, Mr. Moran specializes in geological evaluations of metal projects with a focus on geological and 3D modeling (Leapfrog software), database evaluations and geological inputs to resource estimation; from due diligence audits to feasibility studies; exploration properties to mining operations. Mr. Moran has been instrumental in leading the company's efforts in constructing a comprehensive geological model for the Clarence Stream gold project, in addition to assisting in myriad other day-to-day and other geological activities. Allan is a Certified Professional Geologist and received a Bachelor of Science, Geological Engineering from the Colorado School of Mines.

About Galway Metals Inc.

Galway Metals is a Canadian mineral exploration and development company focused on advancing its 100%-owned, high-grade, open-pitiable flagship Clarence Stream gold project in southwest New Brunswick. Clarence Stream is an emerging gold district with an exploration strike length of approximately 65 kilometres and widths of up to 28 kilometres in certain areas. Galway Metals also has 100%-ownership in the Estrades project, a former producing high-grade, gold-rich polymetallic VMS mine in the northern Abitibi of western Quebec. Led by a management team with a proven track-record of creating shareholder value having sold Galway Resources for US\$340 million, Galway Metals is focused on creating value for all its stakeholders.
