

NOA Lithium Files Technical Report for Rio Grande Project Containing Maiden Resource Estimate

18.03.2024 | [ACCESS Newswire](#)

BUENOS AIRES, March 18, 2024 - [NOA Lithium Brines Inc.](#) (TSXV:NOAL)(FSE:N7N) ("NOA" or the "Company") is pleased to announce that, in connection with its press release dated February 26, 2024 announcing the Company's Maiden Resource Estimate for its flagship project Rio Grande, the Company has prepared and filed a technical report pursuant to National Instrument 43-101 - Standards of Disclosure for Mineral Project titled "Results of Years 2022 and 2023 Exploration Activities Salar De Rio Grande Project Salta Province, Argentina" with an effective date of February 15, 2024 which includes previously disclosed resource calculations and estimates. The full report is available under the Company's profile at www.sedarplus.com and will be available on its website at www.noalithium.com.

About NOA Lithium Brines Inc.

NOA is a lithium exploration and development company formed to acquire assets with significant resource potential. All NOA's projects are located in the heart of the prolific Lithium Triangle, in the mining-friendly province of Salta, Argentina, near a multitude of projects and operations owned by some of the largest players in the lithium industry. NOA has rapidly consolidated one of the largest lithium brine claim portfolios in this region that is not owned by a producing company, with key positions on three prospective salars, being Rio Grande, Arizaro, Salinas Grandes, and totalling over 140,000 hectares.

Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and other statements that are not historical facts. Forward-looking statements are often identified by terms such as "will", "may", "should", "anticipate", "expects" and similar expressions. All statements other than statements of historical fact, included in this news release are forward-looking statements that involve risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company's expectations include the results of further brine process testing and exploration and other risks detailed from time to time in the filings made by the Company with securities regulators. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company. The reader is cautioned not to place undue reliance on any forward-looking information. Such information, although considered reasonable by management at the time of preparation, may prove to be incorrect and actual results may differ materially from those

anticipated. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The forward-looking statements contained in this news release are made as of the date of this news release and the Company will update or revise publicly any of the included forward-looking statements as expressly required by applicable law.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release. No securities regulatory authority has reviewed nor accepts responsibility for the adequacy or accuracy of the content of this news release.
