

ADM Animal Nutrition Expands Recall to Include 17 Additional Lots of Chicken, Swine and Rabbit Feed Products

11.04.2024 | [Business Wire](#)

Specific lots may contain elevated levels of magnesium, sodium, calcium and/or phosphorus; may harm chickens, swine, rabbits

ADM Animal Nutrition, a division of ADM (NYSE: ADM), is expanding the recall announced on March, 30, 2024, to include the following additional products due to elevated levels of magnesium, sodium, calcium and/or phosphorus: Pen Pals® Chicken Starter-Grower (Product Nos. 70009aaa46 and 70009aaa44); Pen Pals Egg Maker Complete (Product No. 70010AAAE4); MaxLean GF Concentrate (Product No. 12354aaa); ShowTec Sow Ration with Thermal Care (Product No. 12343aaa); ShowTec BB 18 BMD (Product No. 18241AGNE4); ShowTec BB 18 BMD/DBZ (Product No. 18241PLM); ShowTec Hi Fat 18 BMD (Product No. 18007AGNE4); ShowTec Lo Fat 15 BMD (Product No. 15350AGN); MoorMan's ShowTec Hi Fat 16 BMD (Product No. 16700AGN); MoorMan's ShowTec Burst Starter w/DF DEN (Product No. 24320CVW); MoorMan's ShowTec Sale Burst w/DF CTC/DEN (Product No. 24320AYWE4); Pen Pals® Professional Show Rabbit Feed (Product No. 81657aaa); and Pen Pals Professional Rabbit 18 (Product No. 80033aaa).

Elevated levels of sodium can cause increased water consumption, reduced feed efficiency, egg production, and growth rate and can be fatal in chickens. Elevated levels of calcium and/or phosphorus can cause reduced feed intake and feed conversion in swine, and elevated levels of magnesium and sodium can cause loose stools, reduced growth rate, and weakness in rabbits.

Below is the list of additional products included in this recall:

Product Name	Lot Number	Product Size	Product Number	Species Impacted	Product I
Pen Pals Chicken Starter-Grower	506700QN	25-lb. Bags	70009aaa46	Chickens	Elevated
