

East Africa Partner Tibet Huayu Initiates the Procurement Process for Mining Equipment at the Mato Bula and Da Tambuk Mine Development Projects, Tigray Regional State, Ethiopia

02.07.2024 | [Newsfile](#)

Vancouver, July 2, 2024 - East Africa Metals (TSXV: EAM) ("East Africa Metals" or the "Company") is pleased to announce that the Company's development partner Tibet Huayu Mining Co Ltd. ("Tibet Huayu") has initiated the procurement process for heavy equipment required for the construction of the Adyabo Project's Mato Bula and Da Tambuk mines, located in the Tigray Regional State of Ethiopia.

Equipment required for the mine construction and mining operations include drill rigs, excavators, trucks, loaders, bulldozers graders crushers, mills, conveyance systems and other heavy equipment (see press release, April 30, 2018).

This significant milestone marks the next phase in advancing the Adyabo Project towards construction readiness. The procurement is undertaken by [Tigray Resources Inc.](#) ("TRI"), which is owned by Tibet Huayu and East Africa Metals, 70% and 30% respectively, including soliciting quotes from suppliers in both the Chinese and European markets. The objective is to finalize the comprehensive schedule of capital costs, complete purchase orders and coordinate the logistics for equipment imports.

Andrew Lee Smith, President and CEO of East Africa Metals, highlighted the importance of this latest development: "The initiation of the procurement process by Tibet Huayu is a crucial step forward for the Adyabo Project. This underscores our commitment to executing a well-planned strategy that ensures the timely acquisition of essential resources for mine construction and operational readiness."

The procurement process is designed to secure high-quality equipment that meets international standards, reflecting our development partner's dedication to operational excellence and environmental responsibility. It aligns with East Africa Metals' broader vision of sustainable resource development in Ethiopia, contributing to local employment and economic growth.

Mato Bula Gold Copper and Da Tambuk Gold Projects

The Adyabo Project's Mato Bula and Da Tambuk deposits are high sulphidation gold rich VMS. This submarine porphyry-related system is located in the southern part of the Arabian-Nubian Shield (ANS) in the Tigray region of northern Ethiopia. Mining licences have been received that cover both deposits on Adyabo, Mato Bula Au-Cu-Ag and Da Tambuk Au.

Preliminary Economic Assessment (PEA) reports dated April 30, 2018 on the Mato Bula Gold Copper and Da Tambuk Gold Projects (which are available on SEDAR+), indicate strong project economics. For Mato Bula, the post-tax NPV was estimated at US\$56.7 million (8% discount rate), and an IRR of 28.4%. For Da Tambuk, the post-tax NPV was estimated at US\$13.0 million, with an IRR of 28.6% at a gold price of USD1,325/ounce.

About East Africa Metals

The Company's principal assets include a 30% Net Profits Interest in the Mato Bula and Da Tambuk mines

(collectively "Adyabo Property") and a 70% project interest in the Harvest polymetallic VMS Exploration Project in the Tigray Region of Ethiopia. In addition, the Company has a 30% Net Streaming Interest in the Magambazi Mine in the Tanga Region of Tanzania.

EAM has invested US\$66.8M in African exploration since 2005 and has identified a total of 2.8 million ounces of gold and gold-equivalent resources representing an average discovery cost per ounce of US\$24.

Cautionary Statement Regarding Forward-Looking Information

This news release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Generally, forward-looking information can be identified using forward-looking terminology such as "anticipate", "believe", "plan", "expect", "intend", "estimate", "forecast", "project", "budget", "schedule", "may", "will", "could", "might", "should", "indicate" or variations of such words or similar words or expressions. Forward-looking information is based on reasonable assumptions that have been made by East Africa as at the date of such information and is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of East Africa to be materially different from those expressed or implied by such forward-looking information, including but not limited to: timing of receipt of mining permit; timing of mining development; projected heap leach recoveries; early exploration; the closing of the agreement with the exploration and development company to advance the Magambazi Project or identify any other corporate opportunities for the Company; mineral exploration and development; metal and mineral prices; availability of capital; accuracy of East Africa's projections and estimates, including the initial mineral resource for the Adyabo, Harvest and Magambazi Properties; interest and exchange rates; competition; stock price fluctuations; availability of drilling equipment and access; actual results of current exploration activities; government regulation; political or economic developments; foreign taxation risks; environmental risks; insurance risks; capital expenditures; operating or technical difficulties in connection with development activities; personnel relations; the speculative nature of strategic metal exploration and development including the risks of diminishing quantities of grades of reserves; contests over title to properties; and changes in project parameters as plans continue to be refined, as well as those risk factors set out in East Africa's management's discussion and analysis for the three months and nine months ended September 30, 2023 and for the year ended December 31, 2023, and East Africa's listing application dated July 8, 2013. Mineral Resources, which are not Mineral Reserves, do not have demonstrated economic viability. The contained gold, copper and silver figures shown are in situ. No assurance can be given that the estimated quantities will be produced. Forward-looking statements are based on assumptions management believes to be reasonable, including but not limited to the timely closing of the financing; the timely closing of the Handeni Property definitive agreement; the price of gold, silver, copper and zinc; the demand for gold, silver, copper and zinc; the ability to carry on exploration and development activities; the timely receipt of any required approvals; the ability to obtain qualified personnel, equipment and services in a timely and cost-efficient manner; the ability to operate in a safe, efficient and effective manner; the renewal or extension of exploration Licenses; the regulatory framework regarding environmental matters, and such other assumptions and factors as set out herein. Although East Africa has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. The Company does not update or revise forward looking information even if new information becomes available unless legislation requires the Company do so. Accordingly, readers should not place undue reliance on forward-looking information contained herein, except in accordance with applicable securities laws. Neither TSX Venture Exchange nor its Regulation

Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
