

# VanadiumCorp Resource Mobilizes Assessment Work on the Lac Dore Vanadium, Iron, and Titanium Property

23.08.2024 | [The Newswire](#)

Vancouver, 23 August 2024 - [VanadiumCorp Resource Inc.](#) (TSX-V: VRB) (FSE: NWNA) (OTC: VRBFF) ("VanadiumCorp" or the "Company") is pleased to announce mobilization this week of a field work program on the Company's flagship Lac Doré deposit in Québec. The work program will comprise mapping, sampling and other works that qualify towards assessment commitments. It is envisioned that further field work, including geophysical surveys, will be undertaken on both the Company's Lac Doré and Iron-T properties this autumn.

Ian Mallory, Chairman and CEO of the Company, stated "We are focused on expanding our understanding of the geological potential of the areas controlled by the Company adjacent to the Lac Doré deposit. We are pleased to be fielding a 'boots on the ground' initiative ahead of airborne and ground-based geophysics planned for the fall".

About VanadiumCorp Resource Inc.

VanadiumCorp Resource Inc. is engaged in the production of high-quality vanadium electrolytes for the expanding international market for long-duration Vanadium Flow Batteries (VFB). The Company's pilot plant facility is based in Val-des-Sources, Québec. The Company is also advancing technologies for the production of the strategic V-Ti and potentially high grade Fe located at its vanadiferous titanomagnetite projects, including at its flagship Lac Doré deposit near Chibougamau, Québec. The successful deployment of these technologies would enable stable, long-term access to the Company's deposits of critical metals, including vanadium feedstock for the production of electrolytes by the Company.

On behalf of the Board of VanadiumCorp Resource Inc.

Forward-Looking Statements

This document may contain forward-looking statements (including "forward-looking information" within the meaning of applicable Canadian securities laws and "forward-looking statements" within the meaning of the US Private Securities Litigation Reform Act of 1995) regarding, among other things, VanadiumCorp's business and the environment in which it operates. In general, forward-looking statements can be identified by the use of words such as "anticipates", "expects" or "does not expect", "is expected", "budget", "forecast", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "could" or "will be taken", "occur" or "will be achieved". VanadiumCorp relies on a number of assumptions and estimates to make these forward-looking statements, including, without limitation, the ability to acquire the necessary permits and authorizations to advance the Lac Doré property to the production stage, the ability to add to existing resources at Lac Doré through drilling, the costs associated with the development and operation of its properties. These assumptions and estimates are made in light of forecasts and conditions that are considered relevant and reasonable based on available information and current circumstances. A number of risk factors may cause actual results, level of activity, performance or results of such exploration and/or mine development to differ materially from those expressed or implied by such forward-looking statements, including, without limitation, whether such discoveries will result in commercially viable quantities of such mineralized materials, the ability to modify project parameters as plans continue to be refined, the ability to execute planned future exploration and drilling programs, the need for additional financing to continue exploration and development efforts, changes in general economic, market and business conditions, and other risks outlined in VanadiumCorp's latest Annual Information Form under the heading "Risk Factors" and in its other public documents. Forward-looking statements are not guarantees of future performance and such information is inherently subject to known and unknown risks, uncertainties and other factors that are difficult to predict and that may be beyond VanadiumCorp's control. Although VanadiumCorp has attempted to identify important risks and factors that could cause actual actions, events or results to differ materially from those described in the forward-looking statements, there may be other factors and risks that cause actions, events or results not to be as anticipated, estimated or intended. Accordingly, undue reliance should not be placed on these forward-looking statements. In addition, all forward-looking statements in this press release are made as of the date of this press release. VanadiumCorp disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable securities laws.

The forward-looking statements contained herein are expressly qualified by this disclaimer.
