Phosphate sales volumes in the first two months of the fourth quarter of 2024 reflect the impact of lost production and shipments related to hurricanes Helene and Milton.

Potash sales volumes in the first two months of the fourth quarter of 2024 reflect a delay in Canpotex shipments caused by Canadian rail and port strikes which are expected to be recovered by the end of the quarter. Potash revenues for the first two months of the fourth quarter were impacted by additional Canpotex logistics costs incurred to mitigate volume losses from the strikes.

Mosaic has successfully completed a third ammonia supply agreement in line with our strategy to ensure raw materials supply reliability and competitiveness.
