Each FT Warrant shall entitle the holder to purchase one common share of the Company (each, a "FT Warrant Share") at a price of \$0.60 per FT Warrant Share at any time on or before the date which is 36 months after the date of issue.

The Company intends to use the net proceeds of the Offering for brine hosted mineral license payments, environmental assessment studies and community consultation. An amount equal to the gross proceeds from the issuance of the FT Shares partially comprising the FT Units will be used to incur, on the Company's Canadian mineral exploration properties, Canadian exploration expenses that qualify as "flow-through mining expenditures", as defined in subsection 127(9) of the Income Tax Act, including drilling related expenses, reservoir data analysis and metallurgy.

The Units will be issued on a private placement basis pursuant to the Listed Issuer Financing Exemption (the "LIFE Exemption") under Part 5A of National Instrument 45-106 - Prospectus Exemptions ("NI 45-106").

The FT Units will be offered by way of the accredited investor and minimum amount exemptions provided under sections 2.3(1), 2.5 and 2.10 of NI 45-106, respectively (the "Non-LIFE Exemptions").

Subject to compliance with applicable regulatory requirements and in accordance with NI 45-106, the Units sold under the Offering pursuant to the LIFE Exemption will be offered in all the Provinces of Canada except Québec, and such securities are expected to be immediately freely tradeable and will not be subject to a hold period under applicable Canadian securities laws. The Company may pay finder's fees to eligible finders in connection with the Offering, subject to compliance

with applicable securities laws and TSX Venture Exchange ("TSXV") policies.

The Offering is scheduled to close on or about April 4, 2025 and is subject to certain conditions including, but not limited to, receipt of all necessary approvals including approval of the TSXV.
