

Integral Metals Commences Phase I Exploration at KAP Project in Partnership with GeoCraft Geological Services

07.04.2025 | [GlobeNewswire](#)

CALGARY, April 07, 2025 - [Integral Metals Corp.](#) (CSE: INTG | OTC: ITGLF | FSE: ZK9) (the "Company" or "Integral") is pleased to announce the engagement of GeoCraft Geological Services Corp. ("GeoCraft") to conduct Phase 1 exploration activities on the Company's wholly-owned KAP Project, located in the Sahtu Region of the Mackenzie Mountains, Northwest Territories, Canada. This initial phase sets the groundwork for targeted drilling planned later this year, with particular interest in following up on historical exploration which demonstrated zinc-lead mineralization, including high grades of gallium and germanium, which are critical metals known for their roles in advanced electronics and renewable energy technologies.

"We're excited to kick off Phase 1 exploration at the KAP Project alongside the experienced team at GeoCraft," said Paul Sparkes, CEO of Integral Metals.

Phase 1 activities are planned to include the re-logging of historical drill core to develop modernized lithological descriptions that will be integrated data from previous exploration campaigns. GeoCraft will also establish a preliminary core reference library and select representative core specimens of key lithological units for laboratory analysis of their physical properties, including tests of magnetic susceptibility, conductivity, and induced polarization (IP) chargeability and resistivity. In preparation for future drilling, Phase 1 will include the development of initial 3D models to delineate preliminary prospective targets, and any zones lacking sufficient soil geochemical data will be identified.

Integral remains committed to responsible exploration practices and continues to engage proactively with local communities as part of its ongoing exploration activities. Further updates will be provided as Phase 1 activities progress.

ABOUT INTEGRAL METALS CORP.

Integral is an exploration stage company, engaged in the business of mineral exploration for critical minerals, including gallium, germanium, and rare earth elements, with the goal of contributing to the development of a

domestic supply chain for these minerals. Integral holds properties in mining-friendly jurisdictions in Canada and the United States of America, including the Northwest Territories, Manitoba and Montana, where it has received regulatory support for its exploration efforts.

Forward-Looking Information

Certain statements contained in this press release constitute forward-looking information. These statements relate to future events or future performance. The use of any of the words "could", "intend", "expect", "believe", "will", "projected", "estimated" and similar expressions and statements relating to matters that are not historical facts are intended to identify forward-looking information and are based on the Company's current beliefs or assumptions as to the outcome and timing of such future events. In particular, this press release contains forward-looking information relating to, among other things, the Company's future plans, including the Company's plans to focus its efforts and resources on the Kap Property and its other mineral properties.

Various assumptions or factors are typically applied in drawing conclusions or making the forecasts or projections set out in forward-looking information, including, in respect of the forward-looking information included in this press release, assumptions regarding the future plans and strategies of the Company, including that the Company will continue to focus its efforts and resources on the Kap Property.

Although forward-looking information is based on the reasonable assumptions of the Company's management, there can be no assurance that any forward-looking information will prove to be accurate. Forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include, among other things, the risk that the Company's business prospects and priorities may change, whether as a result of unexpected events, general market and economic conditions or as a result of the Company's future exploration efforts, and that any such change may result in a re-deployment of the Company's resources and efforts in a manner divergent from the Company's current business plan or strategy. The forward-looking information contained in this release is made as of the date hereof, and the Company is not obligated to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable securities laws. Because of the risks, uncertainties and assumptions contained herein, investors should not place undue reliance on forward-looking information. The foregoing statements expressly qualify any forward-looking information contained herein.
