

# Sage Potash Announces Shares for Debt Transactions

16.05.2025 | [Newsfile](#)

Vancouver, May 16, 2025 - [Sage Potash Corp.](#) (TSXV: SAGE) (OTCQB: SGPTF) ("Sage Potash" or the "Company") announces shares for debt transactions for an aggregate of 1,222,222 common shares of the Company (the "Shares for Debt Transactions").

Pursuant to the Shares for Debt Transactions, subject to approval of the TSX Venture Exchange ("TSXV"), the Company has agreed to issue an aggregate 1,222,222 common shares in the capital of Sage Potash ("Common Shares") to certain parties, one (1) of whom is an officer of the Company.

The Shares for Debt Transactions are being completed to settle amounts owed in respect of financial advisory, consulting and management fees incurred by the Company.

Subject to TSXV approval, the Common Shares to be issued pursuant to the Shares for Debt Transactions will be issued at a deemed price of \$0.27 per Common Share. All securities issued under the Shares for Debt Transactions will be subject to a four month hold period from the date of issuance.

The proposed issuance of securities to an officer of the Company as part of the Shares for Debt Transactions will be a "related party transaction" within the meaning of Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Company expects that such issuance of securities to an officer will be exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as the Company is listed on the TSXV and neither the expected fair market value of securities being issued to related parties nor the consideration being paid by related parties would exceed 25% of the Company's market capitalization. A material change report will be filed under MI 61-101 less than 21 days before the closing date of the Shares for Debt Transactions. The Company believes this shorter period is reasonable and necessary in the circumstances as the Company wishes to improve its financial position by reducing its accrued liabilities as soon as possible.

Closing of the Shares for Debt Transactions is subject to TSXV acceptance.
