

Seafield to Host Open Conference Call to Update Investors on Company Activities in Colombia: Wednesday, July 7, 2010

06.07.2010 | [Marketwired](#)

TORONTO, ONTARIO -- (Marketwire - July 6, 2010) - [Seafield Resources Ltd.](#) (TSX VENTURE: SFF) is pleased to announce that the Company will host an open conference call for investors on Wednesday, July 7, 2010. Mr. Ian G. Park, President of Minera Seafield SAS and Country Manager in Colombia, will be participating in the call.

Investors are invited to call 416-340-2216 or 866-226-1793 at 11:00 a.m. Eastern Standard Time to participate in the call -- File number: 1420096; Moderator: Mr. Ian Park.

Seafield has commenced drilling on the Miraflores project near Quinchia in the Department of Risaralda, Colombia. The Miraflores deposit currently contains an inferred mineral resource of 18.6 million tonnes grading 1.3 g/t gold at a cut-off grade of 0.5 g/t Au for a total of 776,000 ounces of gold (as reported in Seafield's news release of June 28, 2010).

Additionally, Seafield is currently conducting detailed geological mapping and geochemical soil sampling over its Dos Quebradas porphyry target where two reconnaissance drill holes completed by an earlier operator reported significant intersections and grades.

Seafield plans to initiate further exploration over the remainder of almost 67 km² of concession contracts, concession contract proposals and optioned properties also within the next several months. These porphyry targets have been identified by airborne magnetic signatures and regional geochemical anomalies.

Seafield is also pleased to report the launch of a new and significantly expanded website at www.sffresources.com

This news release includes certain "forward looking statements" within the meaning of that phrase under Canadian securities laws. Without limitation, statements regarding potential mineralization and resources, exploration results, and future plans and objectives of the Company are forward looking statements that involve various degrees of risk. Forward-looking statements reflect management's current views with respect to possible future events and conditions and, by their nature, are based on management's beliefs and assumptions and subject to known and unknown risks and uncertainties, both general and specific to the Company. Although the Company believes the expectations expressed in such forward-looking statements are reasonable, such statements are not guarantees of future performance and actual results or developments may differ materially from those in our forward-looking statements. The following are important factors that could cause the Company's actual results to differ materially from those expressed or implied by such forward looking statements: changes in the world wide price of commodities, general market conditions, risks inherent in exploration, risks associated with development, construction and mining operations, the uncertainty of future profitability and the uncertainty of access to additional capital. Additional information regarding the material factors and assumptions that were applied in making these forward looking statements as well as the various risks and uncertainties we face are described in greater detail in the "Risk Factors" section of our annual and interim Management's Discussion and Analysis of our financial results and other continuous disclosure documents and financial statements we file with the Canadian securities regulatory authorities which are available at www.sedar.com. The Company undertakes no obligation to update this forward-looking information except as required by applicable law. The Company relies on litigation protection for forward looking statements.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
