Marathon's losses in these periods include historical exploration expenses attributable to the properties and other assets it acquired from Marathon PGM Corporation ('MPGM') in November 2010 and allocations of other costs incurred by MPGM in the same periods, in accordance with Canadian GAAP applicable to carve-out financial statements.

Marathon's accounting policy is to capitalize property acquisition and exploration costs on its properties once a mineral resource estimate has been completed. The decrease in exploration expenses in 2010 reflects Marathon's focus of its resources in 2010 on exploring the Valentine Lake project, for which the Company capitalized \$3.6 million in costs.

This press release should be read in conjunction with Marathon's audited consolidated financial statements for the year ended December 31, 2009 and the related Management's Discussion and Analysis, both of which are available on www.sedar.com.
