

Unity Energy Corp. Lists on Frankfurt Exchange

23.03.2011 | [Marketwired](#)

VANCOUVER, March 23, 2011 - [Unity Energy Corp.](#) (the "Company" or "Unity") (TSX VENTURE: UTY) (FRANKFURT: UJM) (WKN: A1H64F) is pleased to announce that its common shares have been co-listed on the Frankfurt Stock Exchange under the ticker symbol UJM and the German securities code (WKN) A1H64F.

Anita Algie, BSc., President of Unity stated, "Listing on the Frankfurt Stock Exchange marks another milestone in the long term agenda to achieve worldwide market exposure for Unity Energy Corp. This listing will increase the profile of Unity with both private and institutional investors in Germany and across Europe. Traditionally, European investors have a strong interest for investing in energy companies, and in particular Canadian companies with projects where there is leverage to rising commodity prices plus the blue-sky potential of an exploration program that can increase resources."

Unity intends to support its European listing with a multi-media campaign, featuring its German speaking director, Dr. Peter Born P.Geo. Born began several years of uranium exploration in the Athabasca Basin with Dejour Mines and later worked with the Saskatchewan Geological Survey. In subsequent years, his work for the German company Urangesellschaft in the Thelon Basin lead to the discovery of several mineralized uranium zones.
