

Queensland Mining Corporation MD Howard Renshaw to Present via Live Web Streaming at Investorium.tv, July 4th

16.06.2011 | [ABN Newswire](#)

13:53 AEST June 16, 2011 ABN Newswire (C) 2004-2011 Asia Business News PL. All Rights Reserved.

Sydney, Australia (ABN Newswire) - [Queensland Mining Corporation](#) (ASX: QMC) has consistently been a copper gold play, concentrating its exploration and development activities in the Cloncurry region of north west Queensland. QMC also has an enviable ground position on which to carry-out its planned exploration programme. It has an extensive land holding of more than 10,000 hectares of MLs and MDLs and 1,400sq kms of tenements on which to explore, all centred around Cloncurry in Far North Queensland - the centre of one of the planet's most mineralised regions.

Presenting will be Howard Renshaw MD of QMC. Howard Renshaw founded the Company on 8 July 2004 and has been active in building the Company's business plan and securing the opportunities.

Queensland Mining Corporation's Howard Renshaw joins three other investment opportunities; Stephen Promnitz CEO of Indochine Mining Limited (ASX: IDC) an ASX-listed South East Asia/South West Pacific focused gold-copper exploration and development company; Ian Levy MD of Australian Bauxite Limited (ASX: ABZ) aspiring to identify bauxite resources in excess of 200 million tonnes in one of the world's best bauxite provinces; and Zamia Metals (ASX: ZGM) an Australian mineral exploration company, targeting the Clermont district of central Queensland, a known gold and emerging porphyry mineral province.

Investorium.tv will broadcast as a live web stream on July 4th, 2011.

About Queensland Mining Corporation:

Queensland Mining Corporation Ltd ('QMC') (ASX: QMN) is focused on the exploration and development of its suite of copper and gold projects in the Cloncurry region of northwest Queensland.

QMC is confident that early cash flow can be achieved from its Flamingo Copper Project and the Mount Freda / Gilded Rose Gold Projects. In conjunction with this development, high impact exploration is being undertaken for large IOCG style deposits (e.g. Ernest Henry and Olympic Dam) on the company's Morris Creek and Jessievale properties.

The Cloncurry south project area includes the White Range Project has provided QMC with a large JORC compliant resource, that will provide the basis for a long life mining operation in the Cloncurry region. This purchase offers synergies with the existing QMC mining lease and exploration portfolio and ensures that the company will achieve its goal of being a major mining entity within the short to medium term.
