

Augen Gold Corp. Responds to Trelawney Announcement

11.07.2011 | [Marketwired](#)

TORONTO, ONTARIO -- ([Marketwire](#) - July 11, 2011) - [Augen Gold Corp.](#) (TSX VENTURE: GLD) ("Augen" or "GLD") notes the announcement by [Trelawney Mining and Exploration Inc.](#) ("Trelawney") that it intends to make a formal offer to acquire all of the outstanding shares of Augen in exchange for shares of Trelawney.

The Board of Directors of Augen has appointed a special committee of independent directors to consider the announcement as well as any formal offer actually made. Until Augen completes its review it will not comment or speculate further as to any future course of action that the Company might take.

Augen is disappointed to report that attempts to engage Trelawney in meaningful discussions were rebuffed by Trelawney since receipt of Trelawney's offer at 4:51 p.m. on Friday, July 8, 2011.

Augen advises its shareholders not to deposit any common shares of Augen to any offer made by Trelawney and not to take any action concerning the possible Trelawney offer until Augen shareholders have received further communication from the Board of Directors of Augen. In the event that an actual offer is made, the Board of Directors of Augen will issue a directors' circular concerning the offer. The directors' circular will contain important information including the determination of the Board of Directors of Augen with respect to a recommendation to Augen shareholders.

The Special Committee of the Board of Directors of Augen have engaged Paradigm Capital Inc. as financial advisors and Fraser Milner Casgrain LLP as legal advisors.

About Augen Gold

Augen Gold is a gold exploration company with 23,685 hectares of staked and patented mining claims in the Southern Swayze Greenstone Belt, including the formerly producing Jerome Gold Mine. The claims cover a 45-kilometre long section of the Ridout Deformation Zone, believed to be the western extension of the Kirkland Lake/Larder Lake Break. The geological setting is comparable to the major gold camps of Timmins and Kirkland Lake, and the claims contain numerous gold showings that have received very little historical exploration. Augen Gold is the first company to have assembled such a coherent ground position. Augen Gold has performed a detailed airborne geophysical survey over the whole area, and its sampling program has confirmed the historically reported gold values. The correlation of many gold showings with geophysical features indicates excellent potential for the discovery of additional deposits. The Company's objectives are to aggressively explore the gold showings that correlate with geophysical anomalies, continue resource definition at the Jerome Mine, and to expand its property portfolio with highly prospective mineral assets.
