About Augen Gold

Augen Gold is a gold exploration company with 23,685 hectares of staked and patented mining claims in the

Southern Swayze Greenstone Belt, including the formerly producing Jerome Gold Mine. The claims cover a 45-kilometre long section of the Ridout Deformation Zone, believed to be the western extension of the Kirkland Lake/Larder Lake Break. The geological setting is comparable to the major gold camps of Timmins and Kirkland Lake, and the claims contain numerous gold showings that have received very little historical exploration.
