## Newfield Announces Uinta Basin Crude Oil Supply Agreement

05.12.2011 | PR Newswire

## Seven-Year Deal Secures 18,000 BOPD of Supply Capacity

THE WOODLANDS, Texas, Dec. 5, 2011 /PRNewswire/ -- Newfield Exploration Company

today announced the signing of a crude oil supply agreement with Tesoro Corporation to provide 18,000 barrels per day of supply capacity at Tesoro's refinery in Salt Lake City, Utah. The new agreement spans a seven-year period, with commitments commencing in 2013, and secures additional supply capacity for Newfield's planned oil growth in the Uinta Basin. The oil price differential associated with this agreement is not materially different than Newfield's current supply contracts in the basin.

'Our centerpiece oil asset is the Uinta Basin and today's agreement is a significant step towards securing the necessary oil refining capacity to support our future growth plans,' said Lee K. Boothby, Newfield's Chairman, President and CEO. 'We've enjoyed a mutually-beneficial relationship with Tesoro since entering the region and look forward to growing our businesses together into the next decade.'

Newfield has been active in the Uinta Basin since 2004. Multiple oil-productive geologic targets exist across the acreage and an active drilling campaign is underway to develop the more than 6,000 potential locations on the acreage.

In mid-2011, Newfield disclosed initial results from two new Central Basin oil developments - the Uteland Butte and the Wastach. Newfield is planning to test multiple horizontal intervals in 2012. The Company has been increasing its rig count and expects to run at least eight rigs in the Uinta Basin in 2012, up from an historic five-rig program.

The Company sells its crude oil from the Uinta Basin to multiple Salt Lake City-area refiners and continues to work with each to secure additional refining capacity to meet future growth plans from the region.

Newfield Exploration Company is an independent crude oil and natural gas exploration and production company. The Company relies on a proven growth strategy of growing reserves through an active drilling

program and select acquisitions. Newfield's domestic areas of operation include the Mid-Continent, the Rocky Mountains, onshore Texas, Appalachia and the Gulf of Mexico. The Company has international operations in Malaysia and China.

\*\*This release contains forward-looking information. All information other than historical facts included in this release, such as information regarding estimated or anticipated drilling plans, is forward-looking information. Although Newfield believes that these expectations are reasonable, this information is based upon assumptions and anticipated results that are subject to numerous uncertainties and risks. Actual results may vary significantly from those anticipated due to many factors, including drilling results, oil and gas prices, industry conditions, the prices of goods and services, the availability of drilling rigs and other support services, the availability of refining capacity for the crude oil Newfield produces from its Monument Butte field in Utah, the availability and cost of capital resources, new regulations or changes in tax legislation, labor conditions and severe weather conditions (such as hurricanes). In addition, the drilling of oil and gas wells and the production of hydrocarbons are subject to numerous governmental regulations and operating risks. Other factors that could impact forward-looking statements are described in 'Risk Factors' in Newfield's 2010 Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, and other subsequent public filings with the Securities and Exchange Commission, which can be found at www.sec.gov. Unpredictable or unknown factors not discussed in this press release could also have material adverse effects on forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. Unless legally required, Newfield undertakes no obligation to publicly update or revise any forward-looking statements.
