

# Tresoro Mining Corp. Obtains Injunctive Relief Against Former President and Mercer BC

06.12.2011 | [PR Newswire](#)

VANCOUVER, Dec. 6, 2011 /PRNewswire/ -- Tresoro Mining Corp. (formerly Mercer Gold Corporation; the "Company") (TSOR-OTCQB, AN4-Frankfurt) announces that the British Columbia Supreme Court (the "Court") has today issued Reasons for Judgment (the "Reasons for Judgment") granting an injunction against both Rahim Jivraj, the former President, CEO and a director of the Company ("Mr. Jivraj"), and Mercer Gold Corp. ("Mercer BC"), a privately held British Columbia company owned and/or controlled by Mr. Jivraj, enjoining each of them from taking any steps to interfere with the Company's role as operator of the Guayabales Gold Project located in Colombia (the "Property") and interfering with the Company's rights as optionee under that certain Mineral Assets Option Agreement, dated for reference effective as at April 13, 2010, between the Company and Mercer BC relating to the Property (the "Option Agreement"), pending completion of the arbitration proceeding commenced by the Company with respect to such matter (the "Arbitration Proceeding"). The Court has also ordered that a counterclaim filed by Mercer BC in the Court shall be stayed.

The Court rejected Mercer BC's application to stay the Arbitration Proceeding commenced by the Company. Mercer BC had argued that the Company was barred from seeking arbitration to challenge Mercer BC's termination of the Option Agreement. The Court determined that the Company was not barred and that the issues sought to be determined by the Company are appropriately advanced in the Arbitration Proceeding now being administered by the British Columbia International Commercial Arbitration Centre.

In the Reasons for Judgment, the Court has also ordered each of Mercer BC and Mr. Jivraj to disclose, within 24 hours, the names of all persons and entities with whom Mr. Jivraj has discussed a possible sale or deal concerning the Property since March 28, 2011, and to refrain from communicating with any person or entity for the purpose of discussing a possible agreement concerning the Property in a manner inconsistent with the Company's continuing role as optionee and operator of the Property, pending the Arbitration Proceeding. The Court has further restrained Mr. Jivraj from taking any steps to transfer his shares in Mercer BC and the Company to any third party.

The foregoing description of the Reasons for Judgment is not complete and is qualified in its entirety by reference to the Reasons for Judgment which will be available on the Court's website at [http://www.courts.gov.bc.ca/supreme\\_court/recent\\_Judgments.aspx](http://www.courts.gov.bc.ca/supreme_court/recent_Judgments.aspx).

## About Tresoro Mining Corp.

[Tresoro Mining Corp.](#) is a mineral exploration company. The Company's primary project is to develop the Guayabales Gold Project located in the Marmato Gold District, in Caldas, Colombia. The Project is a bulk-tonnage, gold-silver target that is amenable to open pit mining as well as higher-grade gold-silver mineralization that can be drawn out with selective underground mining techniques. Historically Colombia has been one of the largest gold producers in the world and the Colombian mining industry remains one of the most dynamic and promising sectors of the Colombian economy.

## Important Cautionary Note Regarding Canadian Disclosure Standards

*The Company is an 'OTC Reporting Issuer' under BC Instrument 51-509, Issuers Quoted in the U.S.*

*Over-the-Counter Markets, promulgated by the British Columbia Securities Commission. Accordingly, certain disclosure in this news release or other disclosure provided by the Company has been prepared in accordance with the requirements of securities laws in effect in Canada, which differ from the requirements of United States securities laws. In Canada, an issuer is required to provide technical information with respect to mineralization, including reserves and resources, if any, on its mineral exploration properties in accordance with Canadian requirements, which differ significantly from the requirements of the United States Securities and Exchange Commission (the 'SEC') applicable to registration statements and reports filed by United States companies pursuant to the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended. As such, information contained in this news release or other disclosure provided by the Company concerning descriptions of mineralization under Canadian standards may not be comparable to similar information made public by United States companies subject to the reporting and disclosure requirements of the SEC. This news release or other disclosure provided by the Company may use the terms 'measured mineral resources', 'indicated mineral resources' and 'inferred mineral resources'. While these terms are recognized and required by Canadian regulations (under National Instrument 43-101, Standards of Disclosure for Mineral Projects), the SEC does not recognize them. United States investors are cautioned not to assume that any part or all of the mineral deposits in these categories will ever be converted to reserves. In addition, 'inferred resources' have a great amount of uncertainty as to their existence and economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian securities legislation, estimates of inferred mineral resources may not form the basis of feasibility or pre-feasibility studies, or economic studies, except in rare cases. U.S. investors are cautioned not to assume that part or all of an inferred resource exists, or is economically or legally mineable.*
