

Golden Band Resources Inc. - Golden Band Resources Retires Debt Early

06.10.2011 | [CNW](#)

SASKATOON, Oct. 6, 2011 - [Golden Band Resources Inc.](#) (the Company) (GBN: TSXV) is pleased to announce that it has made final payment on the US\$7 million notes payable one month ahead of the scheduled payment date.

The proceeds from the issuance of the notes, negotiated on September 1, 2010 and used in the development and refurbishment of the Roy Lloyd Mine and Jolu mill, were to be repaid over 10 instalments commencing on January 31, 2011. The final instalment was to have been made October 31, 2011.

Mark J. Thiel, Vice-President and Chief Financial Officer, reported, "Being able to retire these notes early is a significant milestone that is representative of the considerable dedication and effort of the entire Golden Band team in bringing our Saskatchewan assets into production. More importantly, as we look to the future, it provides increased flexibility to take advantage of business development opportunities as we work to grow the Company".

First Quarter Financial Results

The Company also announced that the financial statements and management discussion and analysis for the quarter ended July 31, 2011 will be released in the middle of October, 2011. Securities regulations extended by one month the deadline for filing the first quarterly results for fiscal years commencing in 2011, a reflection of the time required to complete the transition from Canadian generally accepted accounting standards to international financial reporting standards.

About Golden Band

Golden Band Resources, already Saskatchewan's leading gold explorer, is now also its newest gold producer. Golden Band is a Saskatchewan-based, publicly listed company (GBN: TSXV) whose focus is the long-term, systematic exploration and development of its 100%-owned La Ronge Gold Belt properties. Since 1994, Golden Band has assembled through staking and strategic acquisition a land package of more than 875 km², including 12 known gold deposits, four former producing mines, and a licensed gold mill. Golden Band's key value drivers are the methodical and systematic targeting of primary to advanced-stage exploration while progressing along a parallel path of being a sustainable gold producer. The Company is aggressively pursuing its near-term goal of commercial production of its Bingo, Komis, and EP deposits with processing at the 100%-owned Jolu mill. The Company's objective is the annual production of at least 75,000 ounces of gold over a ten-year project life. Other longer-term objectives include the continuation of its highly successful exploration and acquisition strategies.

On behalf of the Board of Directors of Golden Band Resources Inc.,

"Ronald K. Netolitzky"
Ronald K. Netolitzky, Executive Chairman

All of Golden Band's exploration programs and pertinent disclosure of a scientific nature are prepared and/or designed and carried out under the supervision of Charlie Harper, P.Geo., who serves as the qualified person (QP) under the definitions of National Instrument 43-101. All of Golden Band's development-related programs and pertinent disclosure of a development nature are prepared and/or designed and carried out under the supervision of Gary Haywood, P.Eng., Golden Band's VP of Operations and COO, who serves as the qualified person (QP) under the definitions of National Instrument 43-101.

Caution Regarding Forward-Looking Information and Statements

This document includes statements and information about the Company's expectations for the future. When

Golden Band's strategy, plans, and future financial and operating performance, or other things that have not yet taken place, are discussed, the Company is making statements considered to be forward-looking information or forward-looking statements under Canadian and United States securities laws. Such forward-looking information and statements in this document are referred to as "forward-looking information".

Generally, forward-looking information can be identified by the use of forward-looking terminology such as, for example, "plans", "expects" or "does not expect", "is expected", "budget", "goal", "target", "project", "potential", "strategy", "outlook", "scheduled", "predicts", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate" or "believes", and similar expressions, or the negative connotation thereof or variations of such words and phrases or statements that certain actions, events or results, "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative connotation thereof.

Readers are cautioned that the forward-looking information in this document represents Golden Band's current views and can change significantly. Forward-looking information contained in this document is based on certain material assumptions, including, but not limited to:

- geological and other conditions that may affect exploration, development, and the amenability for mining;*
- the Company's ability to comply with current and future environmental, safety and other regulatory requirements, and to obtain and maintain required regulatory approvals; and,*
- the Company's operations not being significantly disrupted as a result of political instability, nationalization, terrorism, sabotage, blockades, breakdown, natural disasters, governmental or political actions, litigation or arbitration proceedings, or other development or operating risks.*

Readers are cautioned that such assumptions are not exhaustive and may prove to be incorrect. Although the Company believes that the assumptions on which the forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking statements because Golden Band can give no assurance that they will prove to be correct.

Actual results and events may be significantly different from those currently expected due to a number of material risks. These include, but are not limited to:

- the Company's inability to enforce its legal rights, or its being subject to litigation or arbitration that has an adverse effect on the Company;*
- defects in title to the Company's properties;*
- unexpected or challenging geological, hydrological, or mining conditions;*
- environmental, safety and regulatory risks, including increased regulatory burdens or delays;*
- the Company's inability to obtain or maintain necessary permits or approvals from government authorities or other third parties;*
- changes to government regulations or policies, including, but not limited to, tax and trade laws and policies;*
- natural phenomena, including, but not limited to, inclement weather, fire, and flooding; and,*
- operational disruption of the Company due to problems and other developments and operating risks.*

In addition, Golden Band's annual and interim MD&A, which are available on SEDAR at www.sedar.com, include a discussion of other material risks that could cause actual results to differ significantly from the Company's current expectations.

Forward-looking information is designed to help the reader understand management's current views of the Company's near and longer-term prospects, and it may not be appropriate for other purposes. The forward-looking information contained in this document is made as of the date hereof and the Company undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws.

The forward-looking information is expressly qualified by these cautionary statements.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
